Theosophical Wisdom:

The Ancient Wisdom Annie Besant, 1906 **Theosophy** Robert S. Ellwood, 1986-01-01 A professor of religion explores Theosophical ideas in modern times Major concepts discussed include reincarnation karma evolution the Oneness of all life the cyclic nature of creation and the mystery of consciousness **Theosophia Inner Wisdom** Helena Petrovna Blavatsky, et al., 2019-03-10 Theosophy is the renaissance of ancient spiritualism Theosophy is Archaic Wisdom Religion as taught by Masters and Magi Sages and Hierophants Prophets and Philosophers to the Elect undisguised by symbols It is Spiritual Knowledge reasoned out and corroborated by personal experience Diogenes Laertius traces Theosophy to an epoch antedating the dynasty of the Ptolemies But in fact Theosophy is much older It is the parent stem of Archaic Wisdom The term was revived in the 3rd century AD by Ammonius Saccas the Alexandrian Socrates of Neo Platonism teacher of Plotinus and founder of the Eclectic Theosophical System Briefly Eclectic Theosophy asserts that 1 Humanity is a periodic emanation from a single noetic essence and 2 When by exertion and merit a mortal soul activates its latent faculties and potencies it can be re connected with its immortal noetic origin and source Hence the Buddhistic Vedantic and Magian or Zoroastrian systems were taught in the Eclectic Theosophical School along with all the philosophies of Greece It was Theosophy which prompted such men as Hegel Fichte and Spinoza to take up the labours of the old Grecian philosophers and speculate upon the One Substance the Deity the Divine All proceeding from Divine Wisdom And it was Theosophy that made it possible for great thinkers such as Plotinus Schelling and Emerson to reflect upon man's divine ancestry What Theosophy is and is not By looking inwards at the noumenal worlds and causes Theosophy is Esoteric Science par excellence Exact Science is only concerned with phenomenal worlds and effects Esoteric Science corroborates Nature's metaphysics and Divine Laws Exact Science Its physics and natural laws In Its fruition Theosophy is Inner Knowledge about the divinity of Cosmos and Man and a noetic progression from the known and knowable to the unknown and otherwise unknowable And as such It lies at the root of every moral philosophy religion and science Theosophy is the world's tree of knowledge and sum total of all sciences Sophia is the accumulated wisdom of Divine Beings from the beginning of time who have willingly accepted the harshness and drudgery of sentient life to help their toiling brothers Theosophy is not a religion It is but an analytical science the ally of every honest religion Being the culmination and practical demonstration of the Truths underlying every creed Theosophy is compatible with every religion It believes in no miracle whether divine or devilish and cherishes no anthropomorphic concepts whether gods or demons Theosophy discriminates between finite animal man and Infinite Divine Man and differs from the Vedantic doctrines It is not even esoteric religion Every old religion is but a chapter or two of the entire volume of archaic primeval mysteries Eastern Occultism alone being able to boast that it is in possession of the full secret with its seven keys In other words Theosophy is Religion itself Loyalty to Truth is Its creed Brotherhood of all beings not just men Its noble aim Theosophy is Inner Wisdom or Divine Knowledge It is at the heart of all religions and philosophies from the earliest time

to the present day embracing all domains of mundane knowledge and human endeavour Yet It is a practical and an ethical philosophy ever transcending self imposed boundaries to expand consciousness and to dispel lingering doubts In short Theosophy is Supernal Philosophy Wisdom s True Love not mere verbiage It is a philosophy to live by Metaphysically Theosophy is the accumulated testimony and wisdom of the ages Theosophy is not knowledge of a God It is knowledge of gods Celestial Knowledge a shoreless ocean of Everlasting Truth Love and Impartiality monistic through and through By seeking the One Truth its allied with the ideals of every seeker of Truth To fully define Theosophy we must consider it under all its aspects By means of Its Golden Precepts those who are intellectually and ethically fit might gain insights of the inner world of being There mystics can see past present and future as in a mirror Theosophy wakes up and frees the Heavenly Man from the clutches of Its outer shadow so that He can live for others here on Earth unconstrained by his earthly jailer forgetting himself in the midst of the many selves in the words of a Philaletheian Ethically Theosophy is unconditioned love for humanity and for all that lives Theosophy is philanthropy par excellence unconditioned and unreserved love for our fellow human beings and for all that lives in thought and deed It alone can restore hope and instil responsibility in a world suffocating from ignorance and its own misdeeds by mediating between egotism and altruism Even the great Law of Harmony depends on altruism Theosophy s aim and noble mission is to establish a community of spiritual thinkers who by studying Its precepts and enriching everyday life with Its exalted ethics can bring about a peaceful realignment of mainstream thought as a matter of urgency Warnings to aspirants Those who do not enter inner life in the Spirit of Brotherhood Those who try to degrade a noble philosophy into a den for immorality Those who are ignorant of the dangers of psychic powers And specially those who have already pledged to live for the World Beware Only purity of deed and thought can raise you to the company of your Divine Self

The Key to Theosophy H. P. Blavatsky,Helena Petrovna Blavatsky,1995 Written in the form of question and answer The Key to Theosophy is an excellent introduction for the inquirer After the publication of Isis Unveiled and The Secret Doctrine the author was deluged with questions about the human constitution spiritual and psychological the mysteries of periodic rebirths and the difference between fate destiny free will and karma These and many other questions on the basic theosophical concepts are answered simply and directly The work is enhanced by a 60 page glossary of philosophical terms drawn from Sanskrit Hebrew and classical literature

Theosophy The Editorial Board of Theosophy Trust,2015-03-10

The central tenets of Theosophia are not derived from any ancient or modern sect but represent the accumulated wisdom of the ages the unrecorded inheritance of humanity Its vast scheme of cosmic and human evolution furnishes all true seekers with the symbolical alphabet necessary to interpret their recurrent visions as well as the universal framework and metaphysical vocabulary drawn from many mystics and seers which enable them to communicate their own intuitive perceptions All authentic mystical writings are enriched by the alchemical flavour of Theosophical thought Theosophy is an integrated system of fundamental verities taught by Initiates and Adepts across millennia It is the Philosophia Perennis the philosophy of human perfectibility the science of spirituality and the religion of responsibility It is the primeval fount of myriad religious systems as well as the hidden essence and esoteric wisdom of each Man a immortal monad has been able to preserve this sacred heritage through the sacrificial efforts of enlightened and compassionate individuals or Bodhisattvas who constitute an ancient Brotherhood They quietly assist in the ethical evolution and spiritual development of the whole of humanity

Theosophia is Divine Wisdom transmitted and verified over aeons by the sages who belong to this secret Brotherhood Sages past and present have accomplished the arduous transformation of their own natures overcoming every vice and limitation and perfecting themselves in noetic ideation and sacrificial action Mahatmas or Hierophants renounce everything for the sake of suffering humanity

Temple Legend Rudolf Steiner,1997 At the time of these lectures Steiner was planning to inaugurate the second section of the Esoteric School which was to deal in a direct way with a renewal out of his own spiritual research of ritual and symbolism He gave these lectures as a necessary preparation to clarify the history and nature of the cultic tradition He thus discusses principally Freemasonry and its background but also the Rosicrucians Manichaeism the
