Tibet The Tibetans:

The Tibetans: Two Perspectives on Tibetan-Chinese Relations Chris Mullin, Phuntsog Wangyal, 1983-08-02 This report provides information on the historical and current situation in Tibet with the aim of contributing to public understanding of the problems. It consists of two parts. The author of part one compares the theoretical basis for relations between the Chinese Government and minority groups with actual practice in the largest autonomous region, Tibet. His account outlines life in Tibet before, during, and after the 1950-1959 uprising and describes the situation today regarding education, religion, language, and administration. He points out that the professed desire of the government to preserve minority cultures has not worked in practice and that Tibet is the least successful example of relations between the government and a minority group. While health and welfare of minority groups may have improved, official policy has led to the suppression of Tibetan religion and culture with the aim of integrating the Tibetan people in Chinese culture. He contends that political oppression and human rights violations are continuing. The author of part 2 describes the history of Tibet and of the Dalai Lamas and of the Chinese invasion and its aftermath, including the situation of Tibetans in exile. He concludes that racial discrimination is becoming increasingly part of the Tibetan problem and warns that the longer the delay in reaching a settlement, the more likely that any traces of Tibetan culture remaining will be destroyed. Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time. MRG strives to reflect these changes as well as respect the right to self-identification on the part of minorities and indigenous peoples. At the same time, after over 50 years of work, we know that our archive is of considerable interest to activists and researchers. Therefore, we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues.

The Tibetans Chris Mullin, 1981 *Tibet and the Tibetans* Graham Sandberg, 1906 This Elibron Classics title is a reprint of the original edition published by the Society for Promoting Christian Knowledge in London, 1906. [Tibet and the Tibetans](#) Tsung-lien Shên, Shêng-chi Liu, 1953 Foreword by George E. Taylor *Tibet, Past & Present* Sir Charles Alfred Bell, 1927 *Greater Tibet* P. Christiaan Klieger, 2015-12-24 The concept of Greater Tibet has surfaced in the political and academic worlds in recent years. It is based in the inadequacies of other definitions of what constitutes the historical and modern worlds in which Tibetan people, ideas, and culture occupy. This collection of papers is inspired by a panel on Greater Tibet held at the XIIIth meeting of the International Association of Tibet Studies in Ulaan Baatar in 2013. Participants included leading Tibet scholars, experts in international law, and Tibetan officials. Greater Tibet is inclusive of all peoples who generally speak languages from the Tibetan branch of the Tibeto-Burman family. It has a concept of mutual origination and share some common historical narratives. It includes a wide area including peoples from the Central Asian Republics, Pakistan, India, Nepal, Bhutan, Bangladesh, Myanmar, People's Republic of China, Mongolia, Russia, and Tibetan people in diaspora abroad. It may even include practitioners of Tibetan Buddhism who are not of Tibetan origin and Tibetan peoples who do not practice

Buddhism Most of this area corresponds to the broad expansion of Tibetan culture and political control in the 7th 9th centuries AD and is thus many times larger than the current Tibet Autonomous Region in China the Tibetan culture area As a conceptual framework Greater Tibet stands in contrast to Scott s concept of Zomia for roughly the same region a term which defines an area of highland Asia and Southeast Asia characterized by disdain for rule from distant centers failed state formation anarchist and libertarian individual proclivities

The People of Tibet Charles A. Bell,1992-10-31 The present book is an attempt to speak about the life of the Tibetan people in their own homes The contents are left on the author s first hand knowledge of Tibetan life during a residence of nearly twenty years from a conversation with his Tibetan acquaintances in their own language not through interpreters In order to keep this volume within moderate limits he had to exclude from it many aspects of Tibetan life Shut off from the outer world by their immense mountain barriers Tibet still presented a virgin field of enquiry There has been little change in the inner life of the people during the last thousand years As the area is very large and the intercourse of one part with another is restricted the manners and customs vary in different districts and provinces

China's Tibet? Warren W. Smith Jr.,2008-05-16 This groundbreaking book explores China s efforts to assimilate Tibet in the process rewriting Tibetan history to conform to Beijing s goals Warren Smith provides the historical context for understanding the current situation through an overview of China s actual as opposed to its promised policies toward Tibet over time His clear eyed appraisal of Chinese policy convincingly shows that the PRC s ultimate intention is assimilation rather than autonomy The author argues that Beijing fears that any genuine autonomy or dialogue with the Dalai Lama will fuel renewed nationalism in China s Tibet as the Chinese leadership calls its possession The book highlights China s past and current propaganda on Tibet to demonstrate China s sensitivity and defensiveness regarding the legitimacy of its rule It traces the history of Sino Tibetan dialogue to show how China has tried to use it to defuse Tibetan exile and international criticism while making no concessions in regard to Tibetan autonomy In the absence of any solution Smith advocates the promotion of Tibet s right to self determination as the most viable strategy for sustaining international attention and maintaining the most essential elements of Tibetan national identity Smith s thoroughly informed work will be valuable not only to Tibet experts and students but also to the larger world of Tibet activists sympathizers and others attempting to understand China s policies
