Tigers In Red Weather Ruth Padel,2009-05-26 Poet writer and descendant of Charles Darwin Ruth Padel set out to visit a tropical jungle and wildlife sanctuary in India and her visit turned into a remarkable two year journey through eleven countries in search of that most elusive and most beautiful animal the tiger Armed with her grandmother s opera glasses and Tunisian running shoes she set off across Asia to ask the question can the tiger be saved from extinction in the wild Tigers are an umbrella species they need everything in the forest to work in tandem they eat deer the deer need vegetation the vegetation has to be pollinated by birds mammals rodents and butterflies If you save the tiger you save everything else Today the 5 000 tigers that still survive in the wild live only in Asia and are scattered throughout 14 countries

Padel says that while tigers will never become extinct they are too popular for that they may disappear from the wild There are as many tigers in cages in the US as there are surviving tigers in the wild As she travels she meets the defenders of the wild the heroic scientists forest guards and conservationists at the frontline fighting to save tigers and their forests from destruction in the places where poverty threatens to wipe out all wildlife She also examines her fascination both as a poet and as the great great granddaughter of Charles Darwin with nature wildness and survival and in the end becomes a knowledgeable advocate for the tiger The result is a beautiful blend of natural history travel literature and memoir and a searing intimate portrait of an animal we have loved and feared almost to extinction **Tigers In Red Weather** Ruth Padel,2006-09-19 Describes the author s journeys in eleven countries in search of the elusive tiger meeting conservationists and learning about the problems of endangered species in general **Tiger** Perseus,Valmik Thapar,2004-07-06 A passionate first person narrative by Valmik Thapar who has spent most of the last thirty years observing tigers in the wild and fighting to ensure their survival is supplemented by the latest scientific findings and essays by twenty of the world s most renowned experts This stunning book explores every aspect of one of nature s most majestic animals making Tiger The Ultimate Guide as authoritative as it is beautiful Book jacket *Catching tigers in red weather* Todd S. Bates,1985 In this study of the life and works of Wallace Stevens Bates sets out to show how one poet transcended biography by transforming it into fables of identity He presents a fascinating and persuasive account of Stevens s inner life the life he lived through his poetry He examines the significant biographical

influences on the poet's work his relationship with his parents and wife the ambience of Harvard College at the turn of the century the New York avant garde that flourished during World War I political pressure from the Left during the 30s his reading of Nietzsche and genealogical research in the 40s and his late accommodation with traditional religious belief Bates makes the poet seem not an isolated figure but part of a rich environment that includes politics business and aesthetic speculation ISBN 0 520 04909 8 26 95
