**Time and Society** Warren D. TenHouten, 2015-05-11 Time consciousness long a shared objective of philosophy and social thought is key to understanding different cultures and their cognitive adaptation to one another Warren D TenHouten s remarkable book achieves this goal by providing a bold and original three level theory of time consciousness its neurocognitive basis and social organization Using classical and contemporary ethnographies of Australian Aborigines and Euro Australians to support his theory TenHouten shows how involvement in hedonic sociality emphasizing equality and community leads to time that is cyclical present oriented and more generally natural whereas agonistic sociality based on inequality and agency leads to time that is linear future oriented and more generally rational School & Society ,1921
