Trb Culture:

TRB Culture Magdalena S. Midgley, 1992 This is the first major synthesis of the TRB Trichterrandbecher funnel necked beaker culture one of the most extensive cultural patterns in the European prehistory of the 4th and 3rd millennia BC The TRB culture covers a vast geographical area stretching from South East Poland to the Netherlands and from Southern Scandinavia to Bohemia and Moravia Consequently it presents enormous difficulties to scholars trying to build an overall picture of the culture and its significance difficulties of language of the scale of the subject and of the amount of material to be assimilated and assessed In this book Magdalena Midgley manages the impressive task of bringing together evidence from the whole North European Plain including new material published in German Danish Dutch Polish and Russian It gives the student and the professional archaeologist an up to date guide to the basic subject matter from an international perspective as well as offering an evaluation of the views of other scholars whose findings are not available in English BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **TRB Culture** Magdalena Midegeley, 1992-11-01 **The Final TRB Culture in Denmark** Karsten Davidsen, 1978 **Palaeohistoria 53/54 (2011/2012)** P. A. J. Attema, E. Bolhuis, R. T. J. Cappers, M. A. Los-Weijns, J. H. M. Peeters, N. D. Maring-Van der Pers, W. Prummel, S. Voutsaki, 2012-12-31 The annual journal Palaeohistoria is edited by the staff of the Groningen Institute of Archaeology and carries detailed articles on material culture analysis of radiocarbon data and the results of excavations surveys and coring campaigns The Megaliths of Northern Europe Magdalena Midgley, 2008-07-01 The North European megaliths are among the most enduring structures built in prehistory they are imbued with symbolic meanings which embody physical and conceptual ideas about the nature of the world inhabited by the first Northern farmers The Megaliths of Northern Europe provides a much needed up to date synthesis of the material available on these monuments incorporating the results of recent research in Holland Germany Denmark and Sweden This research has brought to light new data on the construction of the megaliths and their role in the cultural landscape and Magdalena Midgley offers a fascinating interpretation of the symbolism of megalithic tombs within the context of early farming communities This wealth of new evidence suggests the Northern European megaliths were important foci in the wider north west European context The construction of dolmens and passage graves using huge glacial boulders demanded both great communal effort and considerable skill In addition to this technical expertise the master builders also made use of their esoteric knowledge of rituals This was expressed in the use of exotic building materials and special architectural features and in the placement of tombs within the natural and cultural landscapes creating new metaphors and images Fully illustrated this book will be of interest to both undergraduate and postgraduate students of European Prehistory Archaeology and Prehistoric Anthropology as well as architects who study ancient architecture and social anthropologists who study modern megaliths *Ceci N'est Pas Une Hache* Karsten Wentink, 2006 As early as the 19th century discoveries of groups of large axes puzzled those

confronted with them The fact that most were found in waterlogged places increased the speculation as to the nature of the deposits This thesis is concerned with the character and significance of TRB flint axe depositions The first part is mainly concerned with the question of selective deposition and how it was structured By means of metrical spatial and functional analysis patterns are explored that can shed light on the actions performed by people in the past The second part deals with the meaning and significance of TRB flint axe depositions Why did people in the past do the things they did how were these actions meaningful and important Using sociological theory and ethnographic evidence an interpretation is presented based on the empirically observed patterns
