The Odyssey of China's Imperial Art Treasures traces the three thousand year history of the emperor's imperial collection from the Bronze Age to the present. The tortuous story of these treasures involves a succession of dynasties, invasion and conquest, and civil war resulting in valiant attempts to rescue and preserve the collection. Throughout history, different Chinese regimes used the imperial collection to bolster their own political legitimacy, domestically and internationally. The narrative follows the gradual formation of the Peking Palace Museum in 1925, then its hasty fragmentation as large parts of the collection were moved perilously over long distances to escape wartime destruction, and finally its formal division into what are today two Palace Museums, one in Beijing, the other in Taipei. Enlivened by the personalities of those who cared for the collection, this textured account of the imperial treasures highlights magnificent artworks and their arduous transit through politics, war, and diplomatic reconciliations. Over the years, control of the collections has been fiercely contested, from early dynasties through Mongol and Japanese invaders to Nationalist and Communist rivals, a saga that continues today. This first book-length investigation of the imperial collections will be of great interest to China scholars, historians, and Chinese art specialists. Its tales of palace intrigue will fascinate a wide variety of readers.

Splendors of Imperial China Guo li gu gong bo wu yuan, Maxwell K. Hearn, 1996. The collection of the National Palace Museum is made up largely of the personal holdings of the Chien lung emperor, who reigned 1736-95. Representing the artistic legacy of imperial China, it offers an unsurpassed view of Chinese civilization. The objects, lavishly illustrated and described in this book, which include magnificent ritual bronzes, precious jades, monumental landscape paintings, and exquisite ceramics, are among the finest ever created. Published to accompany the exhibition Splendors of Imperial China: Treasures from the National Palace Museum, Taipei, the book takes the reader through the most significant periods of Chinese culture: its foundations in the Neolithic and Bronze Ages; its flowering in the sophisticated world of the Sung dynasty; its exuberance during the Ming; and its technical brilliance under the Manchus. The author makes the unique beauty of this art accessible through comparisons of selected works and through discussion of their historical context.
