*Presented by Whitall N. Perry*

# Treasury Of Traditional Wisdom

**Whitall N. Perry**

## **Treasury Of Traditional Wisdom:**

**A Treasury of Traditional Wisdom** Whitall N. Perry, 2000 This text presents the traditional stages of the soul's transformation from the creation of the cosmos to final reabsorption in the Divine source. The reader is invited to enter upon a spiritual journey shared by all humanity with wisdom offered from teachers of many and varied creeds.

**A Treasury Of Traditional Wisdom** Whitall N. Perry, 1998-12-01 Since time immemorial one perennial Wisdom permeates the whole history of mankind expressing itself in the spiritual traditions of all peoples. Even though these traditions often differ in their forms of expression in different places and times they nevertheless fully coincide in their essential contents. A. K. Coomaraswamy once said: "The time is coming when a Summa of the Philosophia Perennis will have to be written impartially based on all orthodox sources whatever." Whitall N. Perry after fifteen years of patient work completed this anthology containing several thousands of quotations gathered from a wide range of spiritual authorities pointing to this One transcendent Truth which manifests through many languages. "The nearest thing to a whole religious library compressed between the covers of a single book."

**Thinkers of the Indian Renaissance** S. A. Abbasi, 1997

**Cracks in the Great Wall** Charles Upton, 2005 Can we really know what UFOs are? The answer is Yes but only if we study them armed with a kind of knowledge that explains the true and complete structure of the universe: spiritual, psychic and material. A knowledge that only traditional metaphysics can provide. Science can supply one piece of the puzzle, detective work another, psychic investigation still another. But only metaphysics can put the puzzle together and give us a complete and satisfying picture of the UFO phenomenon.

**Cracks in the Great Wall** analyzes the findings of UFO researcher Jacques Vallee and some of his colleagues in light of the teachings of René Guénon, particularly as expressed in his prophetic masterpiece *The Reign of Quantity and the Signs of the Times*. According to Guénon one of the signs of the End Times is the erosion of the energy barrier or Great Wall between the material plane and the world of subtle realities, which is why our world is now being invaded by infra-psychic forces of a terribly destructive nature. Author Charles Upton shows how one of the most obvious examples of this invasion is the UFO phenomenon, including the experience of alien abduction.

A lifetime student of comparative religion and mysticism, he explains the true nature of UFOs, the quality of the world they come from, and also something about the agenda these beings or some of them are trying to impose upon our world. If you want to remain merely mystified or fascinated by the UFO phenomenon, this book is not for you. But if you want to understand it, *Cracks in the Great Wall* will give you the conceptual tools you need.

With the help of UFOlogists Jacques Vallee and John E. Mack, Christian writers C. S. Lewis and Seraphim Rose, Kabbalah authority Leo Schaya, and traditionalist writers René Guénon and Whitall Perry, Charles Upton has provided the most comprehensive explanation of the UFO phenomenon yet written. It is difficult to be objective in areas outside our collective view of reality, but if, as the author contends, his argument is based on sound principles, it deserves serious consideration by all who are interested in the UFO phenomenon and its effect on our world. Charles Upton is a serious writer from whom I have

learned much His writing deserves close attention Prof Huston Smith author of *The World's Religions* etc **The Christian treasury (and missionary review)**, 1885 *Parabola*, 1976 **Traditionalism** Kenneth Oldmeadow, Harry Oldmeadow, 2000 This book explains why no one engaged in religious and cultural studies can afford to disregard the urgent message of the traditionalists who have reminded a forgetful world in a manner which can be ignored but not refuted of those principles which everywhere and always remain true It also demonstrates why any reassessment of contemporary values now increasingly called into question must take into account the profound traditionalist critique of the modern Western worldview **BOOK JACKET The State and Economic Knowledge** Mary O. Furner, Barry Supple, 1990-08-31 This book addresses an important but inadequately recognized dimension of the activities of the modern state the role it plays in producing the theoretical and practical knowledge necessary for economic policy making Over time governments in modern societies have assumed the ultimate responsibility for ensuring the economic well being of their citizens and for protecting their competitive positions in the international economy To perform their various coordinating functions effectively and to maintain legitimacy governments have found it necessary to rely on accurate information regarding economic conditions and trends and on empirically based theories or models that allow officials to anticipate the economy's performance under specified conditions The traditional assumption which this collection of essays challenges is that despite this profound dependence governments have generally acted as passive consumers of whatever ideas economists in the private sector and professions had to offer This book brings together papers that reveal the ways in which modern states have helped to generate new economic knowledge and how that process interacts with economic changes specific political institutions and ideological contexts **Resurgence**, 1982 *The Green Crusade* Charles T. Rubin, 1994 As recently as fifty years ago the billowing industrial smokestack was a proud symbol of progress and power today it is an image of unbridled corporate irresponsibility This change in public attitudes reflects a shift in social values as rapid and profound as any in American history Its effects are so far reaching that scarcely anyone imagines there was ever an alternative view of the relationship between human beings and nature Yet for all the time and energy devoted to discussion of environmentalism as a social and political movement no one has questioned its existence as a coherent philosophy or given an account of how it first emerged in public consciousness Most people would assume that the environmental idea and the powerful political movement it inspired must have emerged in response to self evident environmental problems such as air and water pollution acid rain the human destruction of natural habitats and the resulting extinction of endangered species But as Charles T Rubin shows in *The Green Crusade* environmental problems are far from being a matter of common sense He points out that while such situations almost certainly existed in the past they were defined in different terms implying different kinds of social and political solutions Rubin tells the story of this massive yet strangely unnoticed transformation of public perception and social morality by focusing on the small group of influential writers and thinkers Rachel Carson Barry Commoner Paul Ehrlich E E

Schumacher and others whose enormously popular writings gave birth to the environmental movement as we know it Cutting through their pretense of presenting common sense ideas based on sound scientific conclusions Rubin's thoughtful discussion of these writers' political ideas refutes their pretensions to scientific accuracy and reveals the radical foundations of their project These environmental popularizers Rubin argues have spent the last thirty years playing on the hopes and fears of the public in order to advance a political agenda that goes well beyond the protection of nature and envisions a total transformation of human society Nor would this social transformation be benign in Rubin's view For these utopian reformers if they had their way would willingly adopt totalitarian means to save us as they see it from ourselves and Rubin argues that as red totalitarianism declines the aspirations of our radical reformers may become increasingly green 1975, □□□ □□□□□□□□

**The Sword of Gnosis: Metaphysics, Cosmology, Tradition, Symbolism** Jacob Needleman, 1974 *Iqbal Review*  
, 1997 Place, 1972 *Books in Print*, 1982 **Libraries: Traditional to Modernization** Jagjit Singh, **Library of Congress Catalog** Library of Congress, 1972 Beginning with 1953 entries for Motion pictures and filmstrips Music and phonorecords form separate parts of the Library of Congress catalogue Entries for Maps and atlases were issued separately 1953 1955 **National Union Catalog**, 1973 Includes entries for maps and atlases **Thinkers of the Indian Renaissance** Donald H. Bishop, 1982 **ADRIS Newsletter**, 1986
