Ackerman,1986 **Treating Troubled Adolescents** H. Fishman,2017-09-29 First Published in 2017 In the first half of the century therapy for disturbed adolescents focused on individual dynamics or group treatment and for the most part did not take into serious consideration adolescents in relation to their families Adolescent problems were regarded as due mostly to the internal difficulties inherent to the stage of life and the family was seen mainly as a backdrop to the vicissitudes of personal development This book by one of family therapy s most creative practitioners changes all that Exclusively devoted to elaborating a family therapy model of understanding and treating adolescents it is a major contribution to the field It also performs the unique and much needed function of revitalizing the concept of homeostasis moving it from its status as a general explanation for non change to that of a useful principle for organizing therapeutic dialogue With exceptional clarity and sensitivity Charles Fishman shows where and how homeostasis operates in families and how recognizing and working with each family s homeostatic maintainer can produce significant change Any clinician who has been ready to give up in frustration when dealing with the thorny problems of adolescent patients will welcome this thoughtful practical book *Treating the Troubled Family* Curt Stern,1966

Treating Troubled Children and Their Families Ellen F. Wachtel,2004-06-02 Integrating systemic psychodynamic and cognitive behavioral perspectives this acclaimed book presents an innovative framework for therapeutic work Ellen Wachtel shows how parents and children all too often get entangled in patterns that cause grief to both generations and demonstrates how to help bring about change with a combination of family focused and child focused interventions Vivid case examples illustrate creative ways to engage young children in family sessions and conduct complementary sessions with children and parents alone using a variety of strengths based developmentally informed strategies The paperback edition features a new preface in which the author reflects on the continuing evolution of her approach **Family Healing** Salvador Minuchin,Michael P. Nichols,1998-04-01 At the center of people s lives is the family which can be and should be a haven from the harshness of the outside world Unfortunately the source of people s greatest hope for happiness often turns out to be the source of their worst disappointments Now the family therapist Salvador Minuchin unravels the knots of family dynamics against the background of his own odyssey from an extended Argentinian Jewish family to his innovative treatment of troubled families Through the stories of families who have sought his help the reader is taken inside the consulting room

to see how families struggle with self defeating patterns of behavior Through his confrontational style of therapy Dr Minuchin demonstrates the strict but unseen rules that trap family members in stifling roles and illuminates methods for helping families untangle systems of disharmony In Dr Minuchin s therapy there are no villains and no victims only people trying to deal with various problems at each stage of the family life cycle Minuchin understands the family as a system of interconnected lives not as a dysfunctional group Each story of a therapeutic encounter brings a new understanding of familiar dilemmas and classic mistakes and recounts Dr Minuchin s creative solutions *The Troubled Family* Theodore P.
