Tremors Ephemera:

Tremors, Ephemera Marco Breuer, James Elkins, 2000 Marco Breuer Tremors Ephemera documents two groundbreaking projects by Marco Breuer Tremors consists of camera less pictures working in the darkroom Breuer employs an assortment of household tools a hot plate or an electric pan for example and moves them with varying degrees of pressure across photographic paper registering their movement as an irregular seismographic trace The paper responds to the heat from the tool by recording a latent image which once developed turns the emulsion a range of colors from deep umber to burnt sienna and charcoal black In Ephemera Breuer goes one step further in relinquishing his commitment to a particular medium and literally attacks standard drawing paper using the format of generically designed handmade books The pages document direct activities taking place deep within the book cavity an ignited fuse creeps through the book gutter leaving a snake like trail fanning out in a smudge of brown smoke an electric shock mars the heart of a centerfold in an explosive display of colorful splashes

Light, Paper, Process Virginia Heckert, 2015-04-14 From its beginnings photography has been shaped by the desire to understand and explore the essence of the medium Light Paper Process features the work of seven artists Alison Rossiter Marco Breuer James Welling Lisa Oppenheim Chris McCaw John Chiara and Matthew Brandt who investigate the possibilities of analog photography by finding innovative surprising and sometimes controversial ways to push light sensitive photographic papers and chemical processing beyond their limits A panoply of practices emerges in the work of these artists Some customize cameras with special lenses or produce images on paper without a camera or film Others load paper rather than film in the camera or create contact printing with sources of light other than the enlarger while still others use expired photographic papers and extraneous materials such as dust and sweat selected to match the particular subject of the photograph All of the artists share a willingness to embrace accident and chance Trial and error contribute to an understanding of the materials and their potential as do the attitudes of underlying curiosity and inventive interrogation The act of making each image is like a performance with only the photographer present The results are stunning This lavish publication accompanies an eponymous exhibition on view at the J Paul Getty Museum from April 14 to September 6 2015

Master Narratives and their Discontents James Elkins, 2013-10-18 In this bracing engagement with the many versions of art history James Elkins argues that the story of modernism and postmodernism is almost always told in terms of four narratives Works of art are either seen as modern or postmodern or praised for their technical skill or because of the politics they appear to embody These are master narratives of contemporary criticism and each leads to a different understanding of what art is and does Both a cogent overview of the state of thinking about art and a challenge to think outside the art historical box Master Narratives and their Discontents is the first volume in a series of short books on the theories of modernism by leading art historians on twentieth century art and art criticism

Ross Romero, SJ,2016-03-31 A reading of the death of Socrates as a self sacrifice with implications for ideas about suffering wisdom and the soul s relationship to the body In Without the Least Tremor M Ross Romero considers the death of Socrates as a sacrificial act rather than an execution and analyzes the implications of such an understanding for the meaning of the Phaedo Plato s recounting of Socrates s death fits many of the conventions of ancient Greek sacrificial ritual Among these are the bath the procession Socrates s appearance as a bull the libation the offering of a rooster to Asclepius the treatment of Socrates s body and corpse and Phaedo s memorialization of Socrates Yet in a powerful moment Socrates s death deviates from a sacrifice as he drinks the pharmakon without the least tremor Developing the themes of suffering and wisdom as they connect to this scene Romero demonstrates how the embodied Socrates is setting forth an eik n of the death of the philosopher Drawing on comparisons with tragedy and comedy he argues that Socrates s death is more fittingly described as self sacrifice than merely an execution or suicide After considering the implications of these themes for the soul s immortality and its relationship to the body the book concludes with an exploration of the place of sacrifice within ethical life
