## **Trenchard Man Of Vision:**

*The Origins of Air War* Robert F. Grattan, 2009-04-30 Air power has come to be seen as a country's first line of defence in the First World War views were vastly different Aircraft were a novelty not always welcomed by the traditionalist military and there were no tactics doctrine or strategies available for the deployment of air power Yet within four years proponents of the new force were making claims often extravagant of what aircraft could achieve Here Robert Grattan traces the remarkable history of the emergence of air power as a force to reckon with and its dramatic impact on military strategy He discusses the details of aircrafts their engines and manufacture including the Fokker Bristol Fighter the Zeppelin and the DH2 the weaponry and prominent figures such as Albert Ball and Werner Voss The First Air War is indispensable for military historians aviation and military enthusiasts as well as those interested in strategy

**Sir Frederick Sykes and the Air Revolution 1912-1918** Lieutenant-Colonel Eric Ash, 2012-10-12 This is a long overdue study of Sir Frederick H Sykes Chief of the Air Staff of Britain's Royal Air Force RAF during the First World War Historians for the most part have either overlooked Sykes or misinterpreted him leaving a gap in the story of British flying Contrary to previous images of Sykes we now see that he was not a secretive intriguer or a tangential subject in RAF history Rather he played a fundamental part in organizing and leading British aviation from 1912 to the end of 1918 He provided organization visionary guidance and efficient administrative control for the fledgling service that tried to survive infancy in the heat of battle

Fledgling Eagle Mark Andrews, 2008 From the days of the Royal Flying Corps in World War I military and political opinion was divided as to the role of aeroplanes in warfare Politics vested interests and personal antipathies all played a part in defining the development and structure of the newly formed RAF This military aviation book outlines the history of the RAF

**Airwar** Phillip S. Meilinger, 2003 These essays cover a wide range of subjects and tell the story of air power's evolution over the past century

**Air Force Magazine**, 2004 **C.P.C.**, 1946 **The Rise and Fall of the Singapore Naval Base, 1919-1942** William David McIntyre, 1979 *Books of the Month*, 1962 **Chasing the Wind** Kenneth Reid Van der Spuy, 1966 *The Leadership, Direction and Legitimacy of the RAF Bomber Offensive from Inception to 1945* Peter Gray, 2012-06-07 This book offers a fresh approach to the debate on the RAF's bomber offensive by using modern strategic leadership theory as an analytical tool to examine the campaign In particular it looks at the legality and legitimacy of the offensive and explores the key interfaces between the military leaders the politicians and allies It also looks at the major controversies in the aims and objectives of the campaign and the personalities involved Modern literature from the leadership field is used to consider the challenges facing those charged with the formulation and execution of the offensive Aspects of the senior leadership disputes are also dealt with in the context of the leadership literature and in the wider context of the strategic challenges then facing Churchill Sinclair and Portal A multi-disciplinary bent to the book enables the reader to move beyond the narrow confines of military considerations to the thorough investigation of the legality legitimacy

and morality of the offensive     **Aerospace Historian** ,1979     The Writers Directory ,1990     **CPC [publications]**.  
Conservative Political Centre (Great Britain),1970     **A Dictionary of Literature in the English Language from 1940 to 1970** Robin Myers,1978 This is a short title checklist on some 1 300 authors each entry of which comprises brief biographical notes bibliographical references an index of titles and a checklist of books with their first publication date Its main aim is to offer librarians booksellers and researchers a finding tool for those authors currently in demand whether meritorious or meretricious It brings together in a single volume for the first time a broad selection of English speaking writers publishing between 1940 and 1970 It serves as a comprehensive reference tool for British and American authors while its real usefulness lies in the obscure entries for Africa Australasia and the Third World where source material takes a great deal of researching and very few published bibliographies exist     *Annual Obituary, 1991* Deborah Andrews,[Anonymus AC00505189],1992 Annual Obituary documents the passing of men and women of achievement from all walks of life By providing current in depth biographies of notable international individuals Annual Obituary offers researchers biographers journalists and librarians complete biographical essays often within months of a person s death Each successive volume builds on this unique permanent biographical collection     The Annual Obituary ,1991     *The Strategic Illusion* Ian Hamill,1981     *Bulletin - Canadian Library Association* Canadian Library Association,1961     Simon David Dutton,1992     Barren Victories: Versailles to Suez Basil Collier,1964
