## **Using Local Labour In Construction A Good Practice Resource:**

**Achieving Community Benefits Through Contracts** Richard Macfarlane, Mark Cook, 2002 To make employment and training or other community benefits key outcomes of a public expenditure programme they need to be incorporated into the specification of what is being purchased or funded The legislative and the policy frameworks for doing this are complex and there has been a lack of detailed guidance especially in relation to UK policy and legislation the European Treaty and EC Procurement Directives In this report the understanding of procurement issues has been furthered by discussions with the Treasury and the Office of Government Commerce It provides for the first time clear guidance on these matters Specifically it details the relevant policy and legal frameworks sets out procedures that can be used suggests support that needs to be provided gives examples of good practice

*Managing Construction Logistics* Gary Sullivan, Stephen Barthorpe, Stephen Robbins, 2011-02-25 Every major industry except construction uses logistics to improve its bottom line Poor logistics is costing the construction industry at least 3 billion a year according to a report *Improving Construction Logistics* published by the Strategic Forum for Construction Additional costs arise as a result of operatives waiting for materials and skilled craftsmen being used for unskilled jobs Inadequate management of logistics also has an adverse effect on quality causes delays to projects and adds to the health and safety risks on site This practical book highlights the benefits of good logistics as well as the use of consolidation centres on projects It shows how reduction in transport movements less money tied up in stock less waste and the more efficient use of skilled craftsmen will reduce the cost of projects reduce construction time improve quality reduce risks to health and safety improve environmental performance and generally improve the image of the industry The authors offer practical ways of achieving these benefits through integrated project teams and supply chains and the increased adoption of information technology including electronic communications bar coding and electronic tagging for tracing products They also show how specific roles for each part of the industry can help to improve logistics Practical clear and accessible First book to address logistics in construction Written by the industry recognized logistics experts Tackles issues of key concern efficient use of labour sustainability waste and supply chain management

**Using Local Labour in Construction** Richard MacFarlane, 2000-11-01 [Regeneration in the 21st Century](#) Michael Carley, 2000 Decades of regeneration activity have not halted the decline in prosperity and the social exclusion of sections of British society Starting in 1996 the Joseph Rowntree Foundation took action to assess the nature of this activity to discover what works and what does not and to search out examples of good practice Its Area Regeneration Programme covered every aspect of regeneration policy and practice from the national to the neighbourhood level from labour market analysis to community development *Regeneration in the 21st century* summarises the findings of the programme which include over 60 research studies It provides an overview of knowledge to date and identifies the key challenges that we face in the 21st century Analysed by specialists in each field the report considers the impact of geography

and reputation on area disadvantage why community involvement is vital and how it can be implemented the effect of joblessness on regeneration and how it can be mitigated why and how some partnerships succeed the need for integration including between top down bottom up and national local initiatives

Regeneration in the 21st century is vital reading for policy makers regeneration partnerships local regional and national and for anyone interested in the regeneration of Britain

Construction Economics Danny Myers, 2016-09-22 Construction Economics provides students with the principles underlying the relationship between economic theory and the construction industry Its new approach specifically examines the problems of securing sustainable construction The new edition has been fully revised to provide an overview of the economy and construction markets since the global financial crisis As such it examines the challenges of changing government policy adapting to climate change adopting BIM and reducing costs A new introduction along with new readings data examples glossary items government strategies and references revises this established core text and brings it up to the historic EU referendum As with previous editions it retains a tried and tested format a clear and user friendly style use of a second colour for emphasis regular summaries of key points a glossary of construction economics extensive use of tables and figures extracts from Construction Management and Economics reviews of useful websites This invaluable textbook is essential reading across a wide range of disciplines from construction management and civil engineering to architecture property and surveying

British National Bibliography for Report Literature ,2002-10 **Books In Print 2004-2005** Ed Bowker Staff, Staff Bowker, Ed, 2004 *Disaster Provisioning* ,2006 The Contribution of the Committee of the Regions to the Construction of Europe Committee of the Regions, 1998 Local Resource-based Approaches for Infrastructure Investment ,2010 Guide prepared by the Advisory Support Information Services and Training ASIST team on using locally available resources in promoting labour intensive rural development Explains how to formulate and implement policies supportive of employment intensive investment planning and programming and its subsequent implementation monitoring and evaluation Includes a glossary of relevant terms
