Half a galaxy away assassins stalk Hanse's wife Melissa Steiner and her mother Archon Katrina Steiner in the passageways of their own palace. Invasion is imminent. The only Mech force capable of stopping that invasion, the Kell Hounds mercenary unit, is trapped in a game of search and destroy with the most fearsome Kurita unit ever created. Our Democracy James Hayden Tufts, 1917 **War and Society** Miguel A. Centeno, Elaine Enriquez, 2016-03-31

War is a paradox. On the one hand, it destroys bodies and destroys communities. On the other hand, it is responsible for some of the strongest human bonds and has been the genesis of many of our most fundamental institutions. *War and Society* addresses these paradoxes while providing a sociological exploration of this enigmatic phenomenon, which has played a central role in human history, wielded an incredible power over human lives, and commanded intellectual questioning for countless generations. The authors offer an analytical account of the origins of war, its historical development, and its consequences for individuals and societies, adopting a comparative approach throughout. It ends with an appraisal of the contemporary role of war, looking to the future of warfare and the fundamental changes in the nature of violent conflict which we are starting to witness. This short, readable, and engaging book will be an ideal reading for upper-level students of political sociology, military sociology, and related subjects.

The Real Business of Living James Hayden Tufts, 1918 **Recognition: Historical and Philosophical Perspectives** Matthew Congdon, Thomas Khurana, 2025-12-12

The concept of recognition has moved to the forefront of philosophical research in recent decades, particularly in political and social philosophy, but also related areas including philosophy of race and gender, philosophy of mind and language, ethics, and aesthetics. It is a concept with deep roots, from at least Rousseau and Hegel to contemporary social theory. In this outstanding volume, an international roster of contributors expands our perspective on recognition beyond the standard story, providing a thought-provoking reassessment of the concept and its history. Covering the fundamental figures and themes while also going beyond them, the twenty-nine chapters explore the full scope of recognition in four sections: Aesthetic recognition, including chapters on Kant, Simmel, Murdoch, and the relationship between recognition, art, and film, including Boorman's *Deliverance* and the Dardenne brothers' *Rosetta*; Recognition in philosophy of mind and language, including chapters on mind, reading, psychoanalysis, the logic and language of recognition, and its relation to epistemic agency; The ethics of recognition, including chapters on Homer, Plato, classical yoga, F. Schlegel, Beauvoir, the Anthropocene, and recognition in the ethics of cognitive disability; The social and political philosophy of recognition, including chapters on property and gift-giving, Hegel's aftermath, slavery and liberation, colonialism, Arendt, and alterity. With a lucid introduction by the editors detailing the standard story of recognition and what lies beyond, *Recognition: Historical and Philosophical Perspectives* provides an authoritative and multifaceted exploration of this fascinating concept, expanding its relevance considerably. It will be important reading for those in philosophy as well as

related disciplines such as political theory sociology social psychology and psychoanalysis *Heroism* Frederick Brigham De Berard,1902 *Language and Society* Paul Chamness Miller,Hidehiro Endo,John L.
