The Best Years of British Film Music, 1936-1958 Jan G. Swynnoe, 2002 A study of the British contribution to film music detailing the idiosyncracies of British film and showing how the differences between it and Hollywood affected composers on both sides of the Atlantic Jan Swynnoe's study is concerned with the special British contribution to film music detailing how the idiosyncracies of British film and of the British character set it apart from its Hollywood counterpart She shows how the differences between the two industries in all aspects of film making variously affected composers on both sides of the Atlantic In the mid 1930s when film composers in America were perfecting the formulae of the classical Hollywood score film music in Britain scarcely existed within a year or so however top British composers were scoring British films How this transformation was brought about and how established British concert composers including Vaughan Williams and Arnold Bax faced the challenge of the exacting and often bewildering art of scoring for feature film is vividly described here and the resulting scores compared with the work of seasoned Hollywood composers JAN SWYNNOE researched the material on which her book is based over several years at the same time pursuing her musical life as pianist percussionist and composer Kritzerland Bruce Kimmel, 2003-04-23 Ten year old Benjamin Kritzer is back Having survived his Martian parents thus far having survived a broken heart when the nine year old love of his life Susan Pomeroy moved to Canada and having survived the Bad Men Benjamin has a whole new slew of adventures to deal with in Kritzerland They include the horrifying prospect of going to junior high school and the more horrifying prospect of having to wear a jockstrap in Gym class visiting the new amusement park Pacific Ocean Park where he finally gets to visit his parents home planet on the Flight to Mars ride meeting The Three Stooges visiting a movie set at Paramount Studios going to St Louis dealing with his psychotic brother and What is it fish grandfather and most importantly meeting his first real friend Paul Daley The story of that close and endearing friendship is hilarious and touching and the portrait of growing up in the magical city that was Los Angeles in the late 1950s is vivid and razor sharp and will make you feel like you've taken a time machine back to another wonderful more innocent era **The Piano on Film** David Huckvale, 2022-03-02 Since the early days of silent film accompaniment the piano has played an integral part in the history of cinema Film's fascination with the piano both in soundtracks and onscreen as a status symbol and icon of popular romanticism offers a revealing opportunity to chart the changing perception of the instrument From Mozart to Elton John this book surveys the cultural history of the piano through the instrument's cinematic functions Composer biopics such as A Song to Remember romantic melodramas like the Liberace vehicle Sincerely Yours and horror films such as The Hands of Orlac along with animated cartoons featuring Bugs Bunny and Tom and Jerry demonstrate just how pervasive the cinematic image of the piano once was during a period when the piano itself began its noticeable decline in everyday life By examining these depictions of the piano onscreen readers will begin to understand not only the decline of the piano but also the decline of the idealistic culture to which it gave birth in the nineteenth century
