Wartime Papers Volume 2 Great Commanders:

The 2nd North Carolina Cavalry Roger H. Harrell, 2011-12-14 The 2nd North Carolina Cavalry fought its first major battle in its home state at New Bern on March 14 1862 and narrowly escaped with its men and reputation intact The regiment was nearly decimated in the Gettysburg Campaign but was rebuilt and later fought with Robert E Lee's cavalry in most major battles including Appomattox Court House on April 9 1865 with only a handful of men This history covers not only the 2nd North Carolina Cavalry's accomplishments and failures but the events going on around them which influenced their actions and performance The author pays particular attention to the 2nd North Carolina's involvement with the Army of Northern Virginia and the North Carolina Cavalry Brigade and includes official documents letters written to and from home diaries and memoirs to present the soldiers' war experiences [World War II in Europe, Africa, and the Americas, with General Sources](#)

Loyd Lee, 1997-08-21 A broadly interdisciplinary work this handbook discusses the best and most enduring literature related to the major topics and themes of World War II Military historiography is treated in essays on the major theaters of military operations and the related themes of logistics and intelligence while political and diplomatic history is covered in chapters on international relations resistance movements and collaboration The volume analyzes themes of domestic history in essays on economic mobilization the home fronts and women in the military and civilian life The book also covers the Holocaust This handbook approaches each topic from a global viewpoint rather than focusing on individual national communities Except for nonprint material the literature research and sources surveyed are primarily those available in English The volume is aimed at both experts on the war and the general academic community and will also be useful to students and serious laymen interested in the war *The Great Partnership* Christian B Keller, 2019-07-02 Why were

Generals Lee and Jackson so successful in their partnership in trying to win the war for the South What was it about their styles friendship even their faith that cemented them together into a fighting machine that consistently won despite often overwhelming odds against them The Great Partnership has the power to change how we think about Confederate strategic decision making and the value of personal relationships among senior leaders responsible for organizational survival Those relationships in the Confederate high command were particularly critical for victory especially the one that existed between the two great Army of Northern Virginia generals It has been over two decades since any author attempted a joint study of the two generals At the very least the book will inspire a very lively debate among the thousands of students of Civil War history At best it will significantly revise how we evaluate Confederate strategy during the height of the war and our understanding of why in the end the South lost **The Generals** Thomas E. Ricks, 2012-10-30 A New York Times bestseller

An epic history of the decline of American military leadership from the bestselling author of *Fiasco* and *Churchill and Orwell* While history has been kind to the American generals of World War II Marshall Eisenhower Patton and Bradley it has been less kind to the generals of the wars that followed such as Koster Franks Sanchez and Petraeus In *The Generals* Thomas E

Ricks sets out to explain why that is In chronicling the widening gulf between performance and accountability among the top brass of the U S military Ricks tells the stories of great leaders and suspect ones generals who rose to the occasion and generals who failed themselves and their soldiers In Ricks s hands this story resounds with larger meaning about the transmission of values about strategic thinking and about the difference between an organization that learns and one that fails *Riding in Circles J.e.b. Stuart and the Confederate Cavalry 1861-1862* , **John J. Pershing and the American Expeditionary Forces in World War I, 1917-1919** John T. Greenwood,2021-09-07 General of the Armies John J Pershing 1860 1948 had a long and distinguished military career but he is most famous for leading the American Expeditionary Forces in World War I He published a memoir *My Experiences in the World War* and has been the subject of numerous biographies but the literature regarding this towering figure and his enormous role in the First World War deserves to be expanded to include a collection of his wartime correspondence Meticulously edited by John T Greenwood volume 1 of *John J Pershing and the American Expeditionary Forces in World War I 1917 1919* covers the period of April 7 through September 30 1917 The letters speak to such topics as Pershing s appointment to command the US expeditionary force his initial preparations and early meetings with Allied civilian and military leaders including Field Marshal Sir Douglas Haig and General Henri Philippe P tain Drawing heavily on Pershing s extensive personal papers this collection includes his letters and cablegrams exchanged with Secretary of War Newton D Baker and Chiefs of Staff Hugh L Scott and Tasker H Bliss Extracts from the large volume of rarely referenced cablegrams represent an important contribution to Pershing s wartime story Two appendices provide the reader with details of Pershing s relations with the Allied governments and armies as he reported them in an unpublished part of his Final Report of Gen John J Pershing in 1920 and his personal appraisal of Marshal Ferdinand Foch as he knew him during the war These volumes of wartime correspondence provide new insight into the work of a legendary soldier and the historic events in which he participated and offer a valuable resource for any serious Pershing or World War I scholar

D-Day, 1944 Theodore A. C. Koistinen,2004 Prolific munitions production keyed America s triumph in World War II but so did the complex economic controls needed to sustain that production Artillery tanks planes ships trucks and weaponry of every kind were constantly demanded by the military and readily supplied by American business While that relationship was remarkably successful in helping the U S win the war it also raised troubling issues about wartime economies that have never been fully resolved Paul Koistinen s fourth installment of a monumental five volume series on the political economy of American warfare focuses on the mobilization of national resources for a truly global war Koistinen comprehensively analyzes all relevant aspects of the World War II economy from 1940 through 1945 describing the nation s struggle to establish effective control over industrial supply and military demand and revealing the growing partnership between the corporate community and the armed services Koistinen traces the evolution of federal agencies mobilizing for war including the National Defense Advisory Commission the Office of Production Management and the Supply Priorities and Allocation Board and then focuses on the work of the War Production Board from 1942 1945 As the war progressed the WPB and related agencies oversaw the military s supply and procurement systems stabilized the economy while financing the war closely monitored labor relations and controlled the shipping and rationing of fuel and food In chronicling American mobilization Koistinen reveals how representatives of industry and the armed services expanded upon their growing prewar ties to shape policies for harnessing the economy and how federal agencies were subsequently riven with dissension as New Deal reformers and anti New Deal corporate elements battled for control over mobilization itself As the armed services emerged as the principal customers of a command economy the military industrial nexus consolidated its power and ultimately succeeded in bending the reformers to its will The product of exhaustive archival research Arsenal of World War II shows that mobilization meant more than simply harnessing the economy for war it also involved struggles for power and position among a great many interest groups and ideologies Nearly two decades in the making it provides an ambitious and enormously insightful overview of the emergence of the military industrial economy one that still resonates today as America continues to wage wars around the globe **Interior** ,1918
