Warzone Dark Eden Mutant Chronicles:

Mutant Chronicles Warzone Thomas Talamini, Excelsior Games, 2004-04-30 Mercury closest planet to the sun and the only world to resist the terraforming skills of humanity's golden age is a stoic symbol of Mishiman Megacorporate might. Mercury was the only planet in the Solar System so completely dominated by one Megacorporation from its founding and Mishima has maintained a near absolute control over this isolated world. But now the once inviolate Mercury is now finding itself suffering from far more than simple Megacorporate espionage; it is also being ravaged by the predations of the Dark Apostles. Mercury World at War is the second in a planetary series of supplements for the Warzone Universe under Siege game. In this riveting sourcebook you will find a complete history of the taming and shaping of Mercury, a study of its climate with optional new environmental rules, a political breakdown of Megacorporate activity both above and beneath Mercury, as well as new units and equipment for each army in the Warzone Universe. Also includes special scenarios and campaign keys for your enjoyment.
