

Washington Portrait Of America

M Planty

Washington Portrait Of America:

George Washington Marc Pachter, 2002 *George Washington A National Treasure* celebrates our nation's permanent acquisition of Gilbert Stuart's magnificent Lansdowne portrait of George Washington. Commissioned for the Marquis of Lansdowne, a British supporter of American independence, the painting shows Washington in the last year of his presidency, 1796. Here is a George Washington for the ages, resolute in the face of the multiple crises of our nation's beginnings, grand in the tradition, not of a king but of democracy's representative civilian rather than military in his authority and above all, the embodiment of a nation both stable and free. Today the painting provides a way to think about a time when America's success was by no means certain about a man whose traits of character became bound up with his nation's fate and about the expectations for our nation's highest office, the presidency, at the very moment of its creation. Filled with symbols of Washington himself and of the new republic, the painting speaks to Americans today as much as it did in the late eighteenth century. Lavishly illustrated in colour with details of the Lansdowne portrait itself with other portraits of Washington, contemporary and modern, and with portraits of Washington's colleagues, the book is a treasure in and of itself. Essays reflect on how this remarkable painting explains the nature of Washington and his importance in the national psyche, discuss how Washington came to sit for the Lansdowne painting, and the work's ownership throughout the years, and consider Gilbert Stuart's portraits of George Washington and their many copies. A chronology highlights Washington's life and times. Richard Brookhiser is a senior editor at National Review and a columnist for the New York Observer. Margaret C. S. Christman is a historian at the National Portrait Gallery. Ellen G. Miles is curator of painting and sculpture at the National Portrait Gallery.

The Image of George Washington Mark Edward Thistlethwaite, 1979 **George Washington, an American Icon** Wendy Wick Reaves, National Portrait Gallery (Smithsonian Institution), 1982 **George Washington: America's First Great Man of Portraits** Michelle Graye, 2014-05-19 This remarkable book, originally published in 1908 by Charles Allen Munn, goes into great detail with fabulous illustrations of the portraiture done by the famous artists of the day: Gilbert Stuart, John Trumbull, and Charles Willson Peale, to commemorate our first president, George Washington. As an added bonus, the 12-page article on Gilbert Stuart from Wikipedia is included as an appendix to the original 1908 work. **George Washington** George Washington, 2017-03 Whether as a statesman, military man, or America's first president, George Washington was a legend in his own lifetime, so renowned in fact that the adulation has knit together, making it difficult to find the real man. Here, constitutional scholar and editor John P. Kaminski has plumbed the depth of 30 years worth of his own research to amass an extraordinary body of quotations by and about Washington to paint an intimate word portrait that brings us closer to the essence of America's man of action. **George Washington** Barbara J. Mitnick, William S. Ayres, 1999 It is also an image that has resisted fundamental revision over the course of two centuries because of the force of Washington's character, the clarity of his political purposes, and the intensity of his charisma. **The Journal of American**

History Francis Trevelyan Miller,1916 *George Washington, an American Icon* George Washington,1982 **The United States of America** ,1905 **Early American Painters** John Hill Morgan,1920 **The Life of George Washington (Classic Reprint)** J.
