Terraforming: The Creating of Habitable Worlds Martin Beech, 2009-04-21 The word terraforming conjures up many exotic images and p hapsevenwildemotions butatitscoreitencapsulatestheideathat worldscanbechangedbydirecthumanaction Theultimateaimof terraforming is to alter a hostile planetary environment into one that is Earth like and eventually upon the surface of the new and vibrant world that you or I could walk freely about and explore It is not entirely clear that this high goal of terraforming can ever be achieved however and consequently throughout much of thisbooktheterraformingideasthatarediscussedwillapplytothe goal of making just some fraction of a world habitable In other cases theterraformingdescribedmightbeaimedatmakingaworld habitablenotforhumansbutforsomepotentialfoodsourcethat of course could be consumed by humans The many icy moons that reside within the Solar System for example may never be ideal locationsforhumanhabitation buttheypresentthegreatpotential for conversion into enormous hydroponic food producing centers The idea of transforming alien worlds has long been a literary backdrop for science fiction writers and many a make believe planet has succumbed to the actions of direct manipulation and the indomitable grinding of colossal machines Indeed there is something both liberating and humbling about the notion of tra forming another world it is the quintessential

eucatastrophy espoused by J R R Tolkien the catastrophe that ultimately brings about a better world When oxygen was first copiously produced by cyanobacterial activity on the Earth some three billion years ago it was an act of extreme chemical pollution and a eucatastrophy The original life nurturing atmosphere was eventually changed forever but an atmosphere that could support advanced life forms came about

The Human Group George Caspar Homans, 2017-09-29 George C Homans's classic volume *The Human Group* was among the first to study the small group as a microcosm of society It introduced a method of analysis and a set of influential theories that cut across areas of specialization on the personality community and industry The study of even the smallest groups is extremely complex with the simplest associations involving an abundance of actions relationships emotions motives ideas and beliefs Homans concentrates on certain activities and processes he observes in five carefully selected and differentiated case studies and from them draws common patterns and ideas that serve as the bases of testable propositions He divides his cases into static and dynamic groups In all five cases Homans selects comparable phenomena for analysis with a contextually different emphasis and elaboration each time His results demonstrate that different as these groups are their behavior reveals fundamental similarities and social uniformities A ground breaking and authoritative work when it was first published in 1950 *The Human Group* continues to inform and invigorate the study of small groups in sociology psychology management and organizations
