We Our Children:

We Are Our Children's Future Nancy C. Wilkens, 2004 Nobody talks about common laws anymore We should because the true balance of power in a Democracy is the distinction between common law and statutory law Does that balance still exist No because with each passing day the principles and values upon which the United States was founded are being eroded Federal and judicial manipulation has made the Constitution Bill of Rights nearly irrelevant As Americans we are the most powerful citizens in the world We can choose our own representatives We can choose to acquire as much knowledge as we desire We can choose to worship God in our own way We can choose to turn our ideas into reality We have opportunities that went undreamt of before 1776 and unrealized in much of the world today We have the power to choose an environment that encourages respect and integrity For 200 years people had the protection of the Constitution Bill of Rights We educated our children we exercised our religion we had the freedom to speak our minds we had property rights we could not be subjected to double jeopardy and the states had authority We had common laws For 200 years we were a people Times have changed We have lost that power States must educate our children in a costly federally mandated manner our property rights are controlled by tax laws and use constraints and when and where we choose to exercise our beliefs is governed We may not voice objections openly or express our opinion unless it is politically correct We are tried on the state and federal levels for the same crime and the states Constitutional power has been suspended by overreaching federal power Our common laws and choices are now bound by federal dictate that is enlarged upon by lawyers courts bureaucrats politicians and special interests with every passing day We have lost our democratic privileges and rights What has this to do with our children Everything If we continue to let the government usurp the power of the people our children will never enjoy the freedoms the Founding Fathers won for us The Gifts We Can Afford to Give Our Children Patti Blamire, 2015-04-07 What does it take to become a teacher a nurse an accountant or a plumber It takes a few years of study and or apprenticeship Being educated for our chosen career gives one the knowledge and confidence to succeed in that vocation What does it take to become a parent usually little more than a few moments of pleasure Which education system prepares us for our role as parents I believe that being a Mom or a Dad is THE most important career assignment we will ever be given and yet we receive little or no preparation for this life long task In the past parents produced many children in order to compliment their challenging work load Today however most parents would like to give their children more than what they themselves have had they also want them to have a happy and comfortable childhood and then they envision success fulfillment and happiness for their offspring in their adult lives Have you thought of how you would go about assisting your child to achieve these milestones of life The Gifts you can Afford to give your Children offers some thoughts on subjects such as The Gift of Creativity how to help your child find the creativity within himself The Gift of Honesty and Integrity the value of living a truth filled life The Gift of Humour finding and enjoying the lighter side of life together as a family The Gift of Self worth and Confidence It also looks at

finding the Light within ourselves and our children the gentle vibration within every living cell in our Universe It proposes a deeper more satisfying and creative approach to raising children a conscious and thoughtful way of exploring parenthood

The American Dream and What We Must Do to Secure Our Children's Dreams Matthew Modleski, 2011-05 For most to live the dream is often just a laughable expression we use to describe our temporary good fortune Not with Matt Modleski When you read his book you will see just how real this man lived not only his dream but lived every day to make himself his organization and his country better than it was the day before Matt and I were USAF fighter pilots together training and flying demanding missions in Europe and Southwest Asia The excitement of flying fighters the courage required to do it effectively and Matt's pursuit to be the best are all here in *The American Dream* Matt also passionately reflects his insightful look at our country today He offers a most valuable and much needed review and an eye opening process that defines a needed course of action for our Nation Matt shows how putting emphasis on accountability will not only right the ship but get our country back on course and the path our Founders intended Reading this personal and extremely thought provoking memoir will leave you motivated and energized It is a great story of a modern day American Patriot one who is not just waving the flag but is carrying it Bill Rial Colonel USAF Ret In 1980 when Matt Modleski joined the Air Force less than 100 Americans had served as Thunderbird demonstration pilots In *The American Dream* you will learn about Matt's journey to join them See how a small town boy from a working middle class family had the audacity to dream big and rose from the enlisted ranks to fly as a Thunderbird pilot You will follow Matt through the mischievous adventures of his youth and see firsthand an unwavering persistence to overcome obstacles But Matt's journey doesn't stop there And in the second half of this book you will learn about his dream for the America he wants to leave to our children and grand children It's a big dream built on the core American values of Family Faith Competitive Spirit Perseverance and Accountability Whether you're joining Matt in the cockpit of his F 16 or navigating through his vision of the way forward for America you will be happy you decided to ride along
