We The People History Documents:

We the People Forrest McDonald, 2017-09-29 Charles A Beard's *An Economic Interpretation of the United States Constitution* was a work of such powerful persuasiveness as to alter the course of American historiography. No historian who followed in studying the making of the Constitution was entirely free from Beard's radical interpretation of the document as serving the economic interests of the Framers as members of the propertied class. Forrest McDonald's *We the People* was the first major challenge to Beard's thesis. This superbly researched and documented volume restored the Constitution as the work of principled and prudent men. It did much to invalidate the crude economic determinism that had become endemic in the writing of American history. *We the People* fills in the details that Beard had overlooked in his fragmentary book. MacDonald's work is based on an exhaustive comparative examination of the economic biographies of the 55 members of the Constitutional Convention and the 1,750 members of the state ratifying conventions. His conclusion is that on the basis of evidence Beard's economic interpretation does not hold. McDonald demonstrates conclusively that the interplay of conditioning or determining factors at work in the making of the Constitution was extremely complex and cannot be rendered intelligible in terms of any single system of interpretation. McDonald's classic work, while never denying economic motivation as a factor, also demonstrates how the rich cultural and political mosaic of the colonies was an independent and dominant factor in the decision making that led to the first new nation. In its pluralistic approach to economic factors and analytic richness, *We the People* is both a major work of American history and a significant document in the history of ideas. It continues to be an essential volume for historians, political scientists, economists, and American studies specialists. **We the**

People Commission on the Bicentennial of the United States Constitution, 1985 *We, the People* Adolph Psyc. D. Caso, 2011-03-30 According to Adolph Caso, the dream behind *We the People* has not yet been fulfilled, although America came close in doing so with Dr. Martin Luther King in his "I Have a Dream" speech. A counter-revolution against King took place which further vitiated the dream of Thomas Jefferson who originally did away with the European practice of giving special privileges to the nobility and to the clergy. Every citizen was equal under and in the law. Unfortunately, that goal was neither fully achieved with the ratification of the Constitution nor with the issuance of the Emancipation Proclamation. In this book, the author reproduces the original documents he believes make possible America's form of government, which despite its shortcomings continues to be one of the highest forms of government that man has devised. In this collection, there are ten original documents from the Mayflower Compact to the Promissory Note, plus the point commentary on each document.
