Allocco, Xenia Zeiler, 2025-10-01 Explores how these two currents are shaping the contours of contemporary Hindu worship myth and visual and material culture in contemporary South Asia and its diasporas This volume focuses on two alternately converging and diverging currents that increasingly shape Hindu traditions namely sweetening and intensification Sweetening is understood here to include the softening of deities iconographies the standardization of religious narratives and the sanitization of ritual practices Alongside this current exists intensification which is understood as an insistence on the continuing relevance of rigorous visceral and frequently stigmatized practices and beliefs often in response to new circumstances and challenges This volume emphasizes an inclusive approach by bringing these two currents into sustained conversation As Hindu traditions are increasingly expanding into new settings including but not limited to new diaspora and new media contexts the long established yet ever changing scale of sweet neutral spicy unfolds in new ways as well The essays in this volume delineate these developments across diverse Hindu geographic linguistic ethnic and social contexts textual and theological traditions and ritual and media formats Indeed the volume's multidisciplinary approach shows how these processes intersect with and even drive contemporary re negotiations re interpretations and re constructions of Hindu deities practices narratives and symbols

perpetually bathed in the harsh glare of an unshifting sun where the gentle embrace of sleep has become a forgotten myth dreams are the rarest of jewels echoes of a lost world traded in hushed whispers The Somnolence Malady a neurological anomaly has silenced the lullaby of slumber leaving humanity trapped in an unrelenting unshifting day From the ashes of this sleepless society rises a new breed of specialist the Dream Hunters They are the gatekeepers of the subconscious venturing into the minds of the rare few who can still dream the Sleepers and extracting those ethereal fragments of the sleeping mind selling solace in a world starved for it Rose Nelson a Dream Hunter with an almost preternatural talent navigates the intricate landscapes of the sleeping mind with the grace of a seasoned explorer Her partner Alex Jenkins a former neuroscientist provides the technological and scientific bedrock for their perilous extractions a grounding presence in a world increasingly defined by the intangible Their shared workspace is a clandestine laboratory a humming haven of wires monitors and softly glowing neural interfaces a sanctuary nestled within the heart of a sleepless city Alex a man tethered to logic and empirical data watches the flickering readouts with a practiced eye ensuring the precarious equilibrium between dream extraction and the Sleeper s delicate mental state Rose however is propelled by a deeper more personal yearning The relentless wakefulness has eroded her senses leaving her craving the solace of sleep a solace she finds only vicariously

through the dreams she extracts a bittersweet echo of a world lost One fateful night while connected to Theresa Hernandez a Sleeper known for her vivid dream narratives Rose stumbles upon a dreamscape unlike any she has ever traversed It isn't the fragmented chaos of the typical subconscious but a cohesive meticulously crafted reality Theresa beneath an amethyst sky converses with beings of pure light wielding powers that defy the very fabric of Rose's waking world This encounter rattles Rose to her core leaving her questioning the nature of reality itself the boundaries between the tangible and the intangible blurring before her eyes Alex initially rooted in his skepticism attributes the anomaly to a glitch in the extraction process a momentary aberration in the complex dance of technology and the human mind But as subsequent extractions unveil similar landscapes variations of the same cities the same people existing under different celestial bodies governed by different physical laws a startling realization dawns on them these aren't mere dreams they are glimpses into parallel realities windows into worlds beyond their comprehension This paradigm shift transforms Rose's focus from solace to scientific inquiry from profit to profound exploration The dreams she once sought for personal respite now represent keys to a vast multiversal tapestry threads of an intricate cosmic design Their groundbreaking discovery however doesn't go unnoticed Kristin Strickland a ruthless corporate magnate who holds the dream market in her iron grip sees in these alternate realities a potential for unimaginable power and exploitation a chance to reshape the very fabric of existence to serve her own avaricious desires Kristin fueled by an insatiable thirst for control begins to stalk Rose and Alex her agents weaving a web of surveillance around them tightening the noose around their groundbreaking research

With the inborn wisdom that has guided them for so long through so many obstacles Hopi men and women perpetuate their proven rituals strongly encouraging those who attempt to neglect or disrespect their obligations to uphold them One of these obligations is to respect the flora and fauna of our planet The Hopi closeness to the Earth is represented in all the arts of all three mesas whether in clay or natural fibers What clay is to a potter's hands natural fibers are to a basket weaver from the Introduction Rising dramatically from the desert floor Arizona's windswept mesas have been home to the Hopis for hundreds of years A people known for protecting their privacy these Native Americans also have a long and less known tradition of weaving baskets and plaques Generations of Hopi weavers have passed down knowledge of techniques and materials from the plant world around them from mother to daughter granddaughter or niece This book is filled with photographs and detailed descriptions of their beautiful baskets the one art above all others that creates the strongest social bonds in Hopi life In these pages weavers open their lives to the outside world as a means of sharing an art form especially demanding of time and talent The reader learns how plant materials are gathered in canyons and creek bottoms close to home and far away The long painstaking process of preparation

and dying is followed step by step Then using techniques of coiled plaited or wicker basketry the weaving begins Underlying the stories of baskets and their weavers is a rare glimpse of what is called the Hopi Way a life philosophy that has strengthened and sustained the Hopi people through centuries of change Many other glimpses of the Hopi world are also shared by author and photographer Helga Teiwes who was warmly invited into the homes of her collaborators Their permission and the permission of the Cultural Preservation Office of the Hopi Tribe gave her access to people and information seldom available to outsiders Teiwes was also granted access to some of the ceremonial observances where baskets are preeminent Woven in brilliant reds greens and yellows as well as black and white Hopi weavings then not only are an arresting art form but also are highly symbolic of what is most important in Hopi life In the women s basket dance for example woven plaques commemorate and honor the Earth and the perpetuation of life Other plaques play a role in the complicated web of Hopi social obligation and reciprocity Living in a landscape of almost surreal form and color Hopi weavers are carrying on one of the oldest arts traditions in the world Their stories in Hopi Basket Weaving will appeal to collectors artists and craftspeople and anyone with an interest in Native American studies especially Native American arts For the traveler or general reader the book is an invitation to enter a little known world and to learn more about an art form steeped in meaning and stunning in its beauty
