Weaving New Worlds:

Weaving New Worlds Sarah H. Hill, 1997 Weaving New Worlds Southeastern Cherokee Women and Their Basketry

Ngarrindjeri Wurruwarrin Diane Bell, 1998-08-01 This finely textured ethnography weaves written texts with the voices of women and men who struggle to protect their sacred sites It provides a deeper understanding of lives profoundly affected by two centuries of colonization

New South Indians Christopher Arris Oakley, 2024-01-12 The Eastern Band s economic decisions of the 1900s did not occur in a vacuum In fact these decisions reflected regional changes and the broader development of the post Civil War American South The Eastern Band of Cherokee Indians formally incorporated under North Carolina law in the 1880s and their economic policies evolved as the country experienced Jim Crow segregation the Great Depression World War II and the civil rights movement During the twentieth century members of the Eastern Band embraced an economic strategy partially based on tourism In the late 1900s they pursued policies that facilitated the rise of casino gaming Divided into five chapters Christopher Arris Oakley s *New South Indians* traces the economic development of the Eastern Band throughout the twentieth century to better contextualize the Cherokee Tribal Council s 1990s decision to incorporate gaming into the nation s economic strategy In building his contextual framework Oakley discusses the interdependent relationships forged by Cherokee Tribal Council members with various public and private entities in order to protect their land manage their resources and advance the well being of their nation s economy and community *New South Indians* also situates the story within the history of the American South Thus the saga of the Eastern Band s struggle for economic autonomy and financial stability throughout the stormy twentieth century can be seen as an integral part of the historical account of western North Carolina A multifaceted glimpse into a vital aspect of contemporary southern history *New South Indians* is sure to appeal to a wide variety of readers from those captivated by Native American culture and the history of the modern South to those interested in economic history

We Have Raised All of You Katy Simpson Smith, 2013-11-04 White black and Native American women in the early South often viewed motherhood as a composite of roles ranging from teacher and nurse to farmer and politician Within a multicultural landscape mothers drew advice and consolation from female networks broader intellectual currents and an understanding of their own multifaceted identities to devise their own standards for child rearing In this way by constructing interpreting and defending their roles as parents women in the South maintained a certain degree of control over their own and their children s lives Focusing on Virginia and the Carolinas from 1750 to 1835 Katy Simpson Smith s study examines these maternal practices to reveal the ways in which diverse groups of women struggled to create empowered identities in the early South *We Have Raised All of You* contributes to a wide variety of historical conversations by affirming the necessity of multicultural not simply biracial studies of the American South Its equally weighted analysis of white black and Native American women sets it distinctly apart from other work Smith shows that while women from different backgrounds shared similar experiences within the trajectory of motherhood no universal

model holds up under scrutiny Most importantly this book suggests that parenthood provided women with some power within their often circumscribed lives Alternately restricted oppressed belittled and enslaved women sought to embrace an identity that would give them some sense of self respect and self worth The rich and varied roles that mothers inherited Smith shows afforded women this empowering identity The Transformation of the Southeastern Indians, 1540-1760 Robbie Ethridge, Charles Hudson, 2010-12-01 With essays by Stephen Davis Penelope Drooker Patricia K Galloway Steven Hahn Charles Hudson Marvin Jeter Paul Kelton Timothy Pertulla Christopher Rodning Helen Rountree Marvin T Smith and John Worth The first two hundred years of Western civilization in the Americas was a time when fundamental and sometimes catastrophic changes occurred in Native American communities in the South In The Transformation of the Southeastern Indians 1540 1760 historians anthropologists and archaeologists provide perspectives on how this era shaped American Indian society for later generations and how it even affects these communities today This collection of essays presents the most current scholarship on the social history of the South identifying and examining the historical forces trends and events that were attendant to the formation of the Indians of the colonial South The essayists discuss how Southeastern Indian culture and society evolved They focus on such aspects as the introduction of European diseases to the New World long distance migration and relocation the influences of the Spanish mission system the effects of the English plantation system the northern fur trade of the English and the French Dutch and English trade of Indian slaves and deerskins in the South This book covers the full geographic and social scope of the Southeast including the indigenous peoples of Florida Virginia Maryland the Appalachian Mountains the Carolina Piedmont the Ohio Valley and the Central and Lower Mississippi Valleys

Cherokee Basketry M. Anna Fariello, 2009-09-30 A tradition that dates back almost ten thousand years basketry is an integral aspect of Cherokee culture Cherokee Basketry describes the craft s forms functions and methods and records the tradition s celebrated makers In the mountains of Western North Carolina stunning baskets are still made from rivercane white oak and honeysuckle and dyed with roots and bark This complex art passed down from mothers to daughters is a thread that bonds modern Native Americans to ancestors and traditional ways of life Anna Fariello associate professor at Western Carolina University reveals that baskets hold much more than food and clothing Woven with the stories of those who produce and use them these masterpieces remain a powerful testament to creativity and imagination *The New Worlds* Martin Simons, 1988 Land, Language, and Women Julie L. Reed, 2025-12-17 Historians largely understand Native American education through the Indian boarding schools and reservation schools established by the US government during the nineteenth and twentieth centuries But Native Americans taught and learned from one another long before colonization and while white settlers and institutions powerfully influenced Indigenous educational practices they never stopped Native peoples from educating one another on their own terms In this ambitious and imaginatively conceived book Julie L Reed uses Cherokee teaching and learning practices spanning more than four centuries to reframe the way we think about Native

American educational history Reed draws on archaeological evidence from Southeastern US caves ethnohistorical narratives of Cherokee syllabary development records from Christian mission schools Cherokee Nation archives and family and personal histories to reveal surprising continuity amid powerful change Centering the role of women as educators across generations in Cherokee matrilineal society the power of land to anchor learning and the significance of language in expressing sovereignty Reed fundamentally rethinks the nature of educational space the roles played by teachers and learners and the periodization imposed by US settler colonialism onto the Indigenous experience
