Web Of Silence:

Whatever is, is... Rohitesh Gidwani,2014-11-01 Should life be lived voluntarily or involuntarily Effort full or effortless Are our worries of day today life misplaced Do we come into existence with a specific purpose What is that purpose This book is an attempt to solve these questions of life Keywords Philosophy Life Purpose Questions Existence *Ghostworld* Simon R. Green,2013-12-17 On a dead planet a captain and his crew encounter an unknown evil in this sci fi adventure from the New York Times bestselling author No life can survive on Unseeli at least not anymore This little planet on the edge of the Empire has no oceans rivers or lakes only an endless forest of metal trees tall enough to scrape the stratosphere Ten years ago the indigenous people stormed out of the forest in rebellion and Captain John Silence was there for the massacre that left Unseeli s natives extinct and the planet completely lifeless save for the engineers who mine its invaluable metals When the mining operation goes off the rails Silence will be called back to the world that still haunts his nightmares The miners have erected a force shield around the planet and cut off all communication with the Empire Backed up by a few professional killers Silence lands at the mine in hopes of discovering what s gone wrong Getting into Unseeli will be tough but getting out could prove impossible

Archetypes Elémire Zolla,2015-06-18 Man is dominated by his archetypes they mould not only his history but his dreams But how are we to define and evaluate them Is it perhaps possible for us to relate more creatively to them Originally published in 1981 these are some of the questions raised by this title To answer them the author gathered together a vast amount of material drawn from Eastern and Western traditions from science literature art and poetry The answers he puts forward are often highly original and will surely challenge many of our most cherished patterns of thought There emerges from this book what can only be described as a global metaphysical system yet the author s language is not that of an ordinary metaphysical treatise and what he writes offered new challenge and hope to those suffering from the despair and cynicism engendered by a great deal in modern society at the time Zolla does not however advocate a return to earlier historical patterns nor is he proposing a new Utopia but rather offers us a brilliant series of lessons in the art of centring In the words of Bernard Wall writing in the Times Literary Supplement Zolla s deep polymathic probing of the terms of human existence makes it sensible to compare him with Simone Weil while some of his conclusions about ultimate mysteries expressed in signs symbols and sacraments the sense of which we have lost will make us think of the later T S Eliot

Eleven Percent Maren Uthaug,2025-04-22 An inverse *The Handmaid s Tale* that asks What if women took over the world Emotionally enthralling and intellectually stimulating Booklist It is the New Time a time not so different from our own except that the men are gone All but eleven percent of them that is the minimum required to avoid inbreeding But they are safely under lock and key in spa centers for women s pleasure trained by amazons to fulfill all desires and procreation A few women protest that the males should be treated better more space better food but all agree that testosterone cannot be allowed to roam free The old patriarchal cities are crumbling becoming overgrown people now live in round communities But if you

prefer the slum that's okay too Religion has survived sort of women priestesses speak in tongues inspired by snake venom as apples are passed around to the congregation But all social engineering has its costs Four different lives intersect Medea a tiny long haired witch and snake whisperer Wicca a young priestess who excelled at the self pleasuring curriculum in school and has lost her pregnant lover Eva a doctor working in a spa center and Silence who lives in an almost abandoned convent Each will discover the cracks in this women's paradise Provocative irreverent and completely riveting *Eleven Percent* a 1 bestseller in Denmark is the first novel to appear in English by celebrated Danish author Maren Uthaug Communication Andrew J. Lamont-Turner, Words are everywhere They fill rooms spill across screens crowd conversations and shape relationships long before we notice what they are doing Yet Scripture refuses to treat them lightly Words are never neutral They reveal the heart they carry truth or falsehood they build or erode and they stand under the judgement of God This book begins with a simple conviction communication is not merely a human skill It is a sacred stewardship *Communication A Christian Perspective* draws you beneath surface habits into something deeper where speech is tied to the character of God the condition of the human heart the reality of sin and the transforming power of grace It asks uncomfortable questions Why do we speak the way we do Why do we wound when we meant to help Why does silence sometimes say more than words Why do conversations collapse under pressure even between people who love one another You will not find quick techniques or polished formulas here Instead you will step into scenes that feel familiar A husband insists he is listening while his wife grows quiet A child learns to hide the truth because correction feels like rejection A grieving woman sits through well meant words that land as weight A workplace meeting drifts into careful dishonesty without anyone naming it A church conversation fractures not because truth was spoken but because it was spoken without grace These are not isolated failures They are windows into something deeper This book brings those moments into the light and places them under Scripture It traces communication back to its source the God who speaks and forward into every area of life marriage parenting friendship conflict grief suffering church life work and public witness It shows how speech is shaped by the heart how listening is an act of love how restraint requires strength how non verbal presence communicates before a sentence is formed and how prayer trains the tongue by bringing it before God You will be confronted Patterns you have excused may be exposed Words you thought harmless may be shown to carry weight you had not considered At the same time you will be given something better than guilt You will be shown a way forward Because communication can change Not through technique alone but through truth repentance grace and the steady work of God in the heart This book offers practical ways to grow habits that retrain speech questions that search motives and language that helps repair what has been strained or broken It does not promise instant transformation It points to faithful change slow deliberate and real Above all this book calls you to see your words as part of your life before God To speak truthfully To listen carefully To restrain wisely To comfort gently To correct faithfully To pray honestly Because every word matters *Democracy and Empire* Inés Valdez, 2023-09-07
