**Performance Coaching For Dummies** Gladeana McMahon,Averil Leimon,2012-02-27 Performance coaching is a modern and rapidly growing method used to assist development and involves helping individuals

to improve their performance in all areas of their life with a particular emphasis on the workplace Performance coaching draws parallels with NLP and often focuses on the psychology of excellence making what's good even better and helping individuals keep ahead of the game On an organisational level it can include helping managers to consider how to get the best from their staff peers and superiors as well as helping to identify strengths weaknesses opportunities and threats A performance coach assists individuals in building on their successes and helps to design plan and instigate successful business life strategies Despite its popularity confusion still surrounds coaching It is a relatively new area and there is still a lack of understanding about how best to use coaching and in what specific situations it will be most effective In addition to this anyone can assume a performance professional business life coach title without holding any particular qualification or registration With this increased awareness and confusion the need for a no nonsense book on the topic that offers trusted advice is needed all the more which is where Performance Coaching For Dummies steps in
