*Another white Man's Burden* Tommy J. Curry, 2018-11-27 Winner of the 2020 Josiah Royce Prize in American Idealist Thought presented by the Josiah Royce Society Another white Man's Burden performs a case study of Josiah Royce's philosophy of racial difference In an effort to lay bare the ethnological racial heritage of American philosophy Tommy J Curry challenges the common notion that the cultural racism of the twentieth century was more progressive and less racist than the biological determinism of the 1800s Like many white thinkers of his time Royce believed in the superiority of the white races Unlike today however whiteness did not represent only one racial designation but many Contrary to the view of the British born Germanophile philosopher Houston S Chamberlain for example who insisted upon the superiority of the Teutonic races Royce believed it was the Anglo Saxon lineage that possessed the key to Western civilization It was the birthright of white America he believed to join the imperial ventures of Britain to take up the white man's burden To this end he advocated the domestic colonization of Blacks in the American South suggested that America's xenophobia was natural and necessary to protecting the culture of white America and demanded the assimilation and elimination of cultural difference for the stability of America's communities Another white Man's Burden reminds philosophers that racism has been part of the building blocks of American thought for centuries and that this must be recognized and addressed in order for its proclamations of democracy community and social problems to have real meaning
