## **Who Knows A Study Of Religious Consciousness:**

*Who Knows?* Raymond M. Smullyan, 2003-02-21 Is there really a God and if so what is God actually like Is there an afterlife and if so is there such a thing as eternal punishment for unrepentant sinners as many orthodox Christians and Muslims believe And is it really true that our unconscious minds are connected to a higher spiritual reality and if so could this higher spiritual reality be the very same thing that religionists call God In his latest book Raymond M Smullyan invites the reader to explore some beautiful and some horrible ideas related to religious and mystical thought In Part One Smullyan uses the writings on religion by fellow polymath Martin Gardner as the starting point for some inspired ideas about religion and belief Part Two focuses on the doctrine of Hell and its justification with Smullyan presenting powerful arguments on both sides of the controversy If God asked you to vote on the retention or abolition of Hell he asks how would you vote Smullyan has posed this question to many believers and received some surprising answers In the last part of his treasurable triptych Smullyan takes up the beautiful and inspiring ideas of Richard Bucke and Edward Carpenter on Cosmic Consciousness Readers will delight in Smullyan s observations on religion and in his clear eyed presentation of many new and startling ideas about this most wonderful product of human consciousness

**Classical Approaches to the Study of Religion** Jacques Waardenburg, 2017-01-23 Waardenburg s magisterial essay traces the rise and development of the academic study of religion from the mid nineteenth to the mid twentieth century outlining the establishment of the discipline its connections with other fields religion as a subject of research and perspectives on a phenomenological study of religion Futhermore a second part comprises an anthology of texts from 41 scholars whose work was programmatic in the evolution of the academic study of religion Each chapter presents a particular approach theory and method relevant to the study of religion The pieces selected for this volume were taken from the discipline of religious studies as well as from related fields such as anthropology sociology and psychology to name a few

Marketing is a collection of reviewed and relevant research chapters offering a comprehensive overview of recent developments in the field of psychology. The book comprises single chapters authored by various researchers and edited by an expert active in the research area. All chapters are complete in itself but united under a common research study topic. This publication aims at providing a thorough overview of the latest research efforts by international authors and open new possible research paths for further novel developments.
