you're prepared to change the way you think about loneliness and if you're determined to use your alone time to accomplish your goals *The Art of Being Alone* is a book for anyone who wants to discover how to make the most of their alone time so that they can embrace their present life and feel motivated to pursue their ideal one. It's time to change the tide and create the life you have always desired if you are still victimizing your character because you were left behind. [How to Be Alone](#) Lane Moore, 2018-11-06 The former Sex Relationships Editor for *Cosmopolitan* and host of the wildly popular comedy show *Tinder Live* with Lane Moore presents her poignant, funny, and deeply moving first book. Lane Moore is a rare performer who is as impressive onstage whether hosting her iconic show *Tinder Live* or being the enigmatic front woman of *It Was Romance* as she is on the page as both a former writer for *The Onion* and an award-winning sex and relationships editor for *Cosmopolitan*. But her story has had its obstacles, including being her own parent, living in her car as a teenager, and moving to New York City to pursue her dreams. Through it all, she looked to movies, TV, and music as the family and support systems she never had. From spending the holidays alone to having better stranger luck than with those closest to her to feeling like the last hopeless romantic on earth, Lane reveals her powerful and entertaining journey in all its candor, anxiety, and ultimate acceptance with humor always her bolstering force and greatest gift. *How to Be Alone* is a must-read for anyone whose childhood still feels unresolved, who spends more time pretending to have friends online than feeling close to anyone in real life, who tries to have genuine deep conversations in a roomful of people who would rather you not. Above all, it's a book for anyone who desperately wants to feel less alone and a little more connected through reading her words. *About the Art of Being Alone* Janett Menzel, 2017-08-16 Do you constantly need people to be around you to feel fulfilled and satisfied? Do you feel empty when you have no one who is with you? Do you look for partners and lovers to feel loved, wanted, and enough, although they later turn out to be the wrong choice? Are you constantly waiting for partners who don't love you as much as you love them, hoping that they will be ready for a committed relationship one day? Then you might attract them unconsciously because deep down you are afraid of being alone. This book is dedicated to all those who want to understand their fear of being alone and their loneliness and transform it into self-love. The author, Janett Menzel, takes the reader along on a journey of discovery: what type you are, where the fear and depressive emotions come from, what they want to say to you, and how you can overcome them with self-recognition. However, instead of fighting it, she suggests examining it carefully, understanding the emptiness, and finally transforming it. With over 70 strategies and reinventions of your own character and life, the author helps the readers to expose and decouple old belief systems, recognize dependencies, and resolve blockades.
