 More growth Stronger bonds *The Calm Home OS - Your Modular Guide to Serene Spaces* Douglas Tonks,2026-02-15 The  
 Calm Home OS Your Modular Guide to Serene Spaces grew from a belief I ve held for years calm isn t something you stumble  
 into it s something you design Just like a computer has an operating system that governs how everything runs your home has  
 one too an invisible set of habits layouts and sensory cues that shape how you feel the moment you walk through the door  
 This book helps you rewrite that system with intention clarity and ease I wrote this guide for anyone who craves a quieter  
 more grounded living space but doesn t know where to begin You don t need a renovation budget or a minimalist personality  
 What you need is a modular approach small adaptable components you can rearrange as your life shifts Each chapter shows  
 you how to build those modules light colour sound storage rituals and the subtle environmental signals that support rest  
 focus and emotional steadiness You ll explore how to create rooms that work with your nervous system rather than against it  
 how to design routines that reduce friction and how to make your home feel like a partner in your wellbeing Expect practical  
 steps reflective prompts and simple experiments you can try in a single afternoon The aim is not perfection but alignment  
 spaces that feel like they re on your side Think of this book as a gentle operating system upgrade for your home and your  
 mind One tweak at a time you ll build an environment that restores you supports you and quietly reminds you of who you
