The Canadian Patent Office Record and Register of Copyrights and Trade Marks, 1928 Law and Sustainable Development After COVID-19 Augustine Edobor Arimoro, Ezinne Mirian Igbokwe, Tamaraudoubra Tom Egbe, 2024-06-18 This book considers the impact of the COVID 19 pandemic on the realisation of the United Nations Sustainable Development Goals Although efforts towards the attainment of the Sustainable Development Goals are ongoing the COVID 19 pandemic has had a significant impact on these efforts accentuating inequities as well as absorbing resources This book addresses this impact as it takes up the question of how to ensure global recovery in line with the target for the Sustainable Development Goals after the pandemic Adopting an interdisciplinary approach but focusing particularly on the role of law and legal frameworks in this recovery the book considers the effect of the pandemic on key industries such as shipping insurance manufacturing and banking as well as on the role of the State and non State actors Pursuing an explicitly Global South perspective the book maintains that in the post COVID era it is the elaboration a rule of law framework that is in sync with both the Global North and South that is crucial if the Sustainable Development Goals are to be achieved This book will be of value to scholars students and policymakers working in the general area of law and development but especially those with specific interests in the United Nations Sustainable Development Goals Microplastic in the Environment: Pattern and Process Michael S. Bank, 2021-10-09 This open access book examines global plastic pollution an issue that has become a critical societal challenge with implications for environmental and public health This volume provides a comprehensive holistic analysis on the plastic cycle and its subsequent effects on biota food security and human exposure Importantly global environmental change and its associated systems level processes including atmospheric deposition ecosystem complexity UV exposure wind patterns water stratification ocean circulation etc are all important direct and indirect factors governing the fate transport and biotic and abiotic processing of plastic particles across ecosystem types Furthermore the distribution of plastic in the ocean is not independent of terrestrial ecosystem dynamics since much of the plastic in marine ecosystems originates from land and should therefore be evaluated in the context of the larger plastic cycle Changes in species size distribution habitat and food web complexity due to global environmental change will likely alter trophic transfer dynamics and the ecological effects of nano and microplastics The fate and transport dynamics of plastic particles are influenced by their size form shape polymer type additives and overall ecosystem conditions In addition to the risks that plastics pose to the total environment the potential impacts on human health and exposure routes including seafood consumption and air and drinking water need to be assessed in a comprehensive and quantitative manner Here I present a holistic and interdisciplinary book volume designed to advance the understanding of plastic cycling in the environment with an emphasis on sources fate and transport ecotoxicology climate change effects food security microbiology sustainability human exposure and public policy *Study of Animal Life* John Arthur Thomson, 1892 **The Circular Path** Moharana

Choudhury, Sushobhan Majumdar, Mika Sillanpää, 2026-01-01 This book explores the transformative potential of waste management practices. It comprehensively analyzes how waste can be repurposed as a valuable resource within the sustainability framework. Readers will gain insights into waste management's multifaceted challenges and opportunities through interdisciplinary perspectives including environmental science, economics, operations management, computer science, and social studies. From practical solutions like recycling and composting to cutting-edge innovations in waste-to-energy technologies, the book outlines a roadmap for utilizing waste to achieve positive environmental and economic outcomes. *The Circular Path: Rethinking Waste for a Sustainable Future* encourages stakeholder collaboration and inspires a shift toward a circular economy mindset. It presents a vision for a future where waste is no longer viewed as a problem but as a catalyst for sustainable development. Goes beyond theoretical discussions to offer practical solutions for transforming waste into sustainable resources. Explores the role of technological advancements in revolutionizing waste management practices. Emphasizes the importance of collaboration among stakeholders including government agencies, business, and communities.
