MALDWYN MILLS

Six Middle English Romances

Ad Putter, Jane Gilbert

Six Middle English Romances:

Six Middle English romances Maldwyn Mills,1973 Four Middle English Romances Harriet Hudson,2006-11-01 Sir Isumbras Octavian Sir Eglamour of Artois and Sir Tryamour are important works in a major literary development of the fourteenth century the flourishing of Middle English popular romance These four narratives were among the most popular all survive in multiple manuscripts and continued to circulate in prints through the sixteenth century All were composed in the northeast Midlands in the fifty years between 1325 and 1375 and they appear together in several manuscripts The tale the romances tell of exiled queens orphaned children and penitent fathers was one of the most prevalent medieval stories Sometimes called the Constance Eustace legend after two well known pious versions its influence can be seen in numerous romances Magic and the Supernatural in Medieval English Romance Corinne J. Saunders,2010 This study looks at a wide range of medieval English romance texts including the works of Chaucer and Malory from a broad cultural perspective to show that while they employ magic in order to create exotic escapist worlds they are also grounded in a sense of possibility and reflect a complex web of inherited and current ideas Book Jacket *Rereading Middle English Romance* Murray James Evans,1995 Focusing on features of layout and decoration in manuscripts containing Middle English romances Murray Evans discusses how these details signal generic and structural relationships among texts Using a computer assisted survey to tabulate and quantify features of decoration and presentation in fifteen manuscript collections including the Auchinleck MS and Cambridge University Library MS Ff 2 38 he demonstrates that romances are decorated more generously than other kinds of texts Readings in Medieval English Romance Carol M. Meale,1994 Wide ranging essays engaging with all aspects of medieval romance from textual studies to historical sources The essays in this volume reflect the range and diversity of approach and of critical stance which have characterised romance studies in recent years Amongst the areas of interest addressed are those of generic definition the role of romance in relation to emergent ideas of nationalism the complex associations between gender and genre and between historical events and their expression in literature Other issues explored are the transmission and reception of texts the nature of the audiences and the implications of critical theory for the reading of medieval romance Contributors MALDWYN MILLS J A BURROW DONNA CRAWFORD A S G EDWARDS ARLYN DIAMOND JOCELYN WOGAN BROWNE JOHN J THOMPSON THORLAC TURVILLE PETRE DIANA SPEED JOHN SCATTERGOOD COLIN RICHMOND CAROL M MEALE **Naming and Namelessness in Medieval Romance** Jane Bliss,2008 A survey of the significance of names or their absence in medieval English French and Anglo Norman romance Naming and namelessness are among the major themes of medieval romance Because the genre is so difficult to define scholars have viewed romance as containing a critical number of themes this book treats naming as a major theme of romance and furthermore examines romance s relationship with contemporary naming theory A new genre it is able to play with naming in a way that previously established genres are not The book begins with a discussion of the medieval

background to romance and explores a series of naming patterns found across a broad range of texts. It continues with detailed analysis of twenty one romances in English French and Anglo Norman from 1130 to 1500 to show how naming themes are treated differently in each and to demonstrate the importance of name as a generic marker. Finally an appendix provides details of each romance's context together with indications for further research.

JANE BLISS is an independent scholar she gained her PhD from Oxford Brookes University. *The Cambridge Companion to Medieval Romance* Roberta L. Krueger, 2000-06-22. This Companion presents fifteen original and engaging essays by leading scholars on one of the most influential genres of Western literature. Chapters describe the origins of early verse romance in twelfth century French and Anglo Norman courts and analyze the evolution of verse and prose romance in France Germany England Italy and Spain throughout the Middle Ages. The volume introduces a rich array of traditions and texts and offers fresh perspectives on the manuscript context of romance the relationship of romance to other genres popular romance in urban contexts romance as mirror of familiar and social tensions and the representation of courtly love chivalry other worlds and gender roles. Together the essays demonstrate that European romances not only helped to promulgate the ideals of elite societies in formation but also held those values up for questioning. An introduction a chronology and a bibliography of texts and translations complete this lively useful overview.

[An Examination of Differences and Similarities in Six Middle English Romances](#) David A. Gooding, 1962

Three Periods of Middle English Romance Marlene Beth Clarke, 1983

[The Spirit of Medieval English Popular Romance](#) Ad Putter, Jane Gilbert, 2014-06-06. The Middle English popular romances enjoyed a wide appeal in later medieval Britain and even today students of medieval literature will encounter examples of the genre such as Sir Orfeo Sir Tristrem and Sir Launfal. This collection of twelve specially commissioned essays is designed to meet the need for a stimulating guide to the genre. Each essay introduces one popular romance setting it in its literary and historical contexts and develops an original interpretation that reveals the possibilities that popular romances offer for modern literary criticism. A substantial introduction by the editors discusses the production and transmission of popular romances in the Middle Ages and considers the modern reception of popular romance and the interpretative challenges offered by new theoretical approaches. Accessible to advanced students of English this book is also of interest to those working in the field of medieval studies comparative literature and popular culture.

Catalogue of Manuscripts Containing Middle English Romances Gisela Guddat-Figge, 1976

The Faerie Queene and Middle English Romance Andrew King, 2000. In this study of the impact of Middle English romance on *The Faerie Queene* this text employs the concept of memory in which Middle English romance writers and Spenser show interest to build a sense of the complexity of the native romance tradition.
