Socorro Saucer:

Socorro Saucer: the Closest Encounter of Them All Ray Stanford, 1978-05-29 On April 24th 1964 a UFO landing was reported at Socorro New Mexico which was witnessed by policeman Lonnie Zamora and an unidentified tourist That much has long been known for the Socorro landing is one of the most famous in UFO history What this book reveals for the first time is that the intelligence community censored information pertaining to the case The public never found out that at least three pieces of physical UFO evidence from the Socorro landing were obtained that Zamora was ordered not to divulge the red insignia he saw on the UFO and that an FBI agent told him to deny having seen two humanoids beside the UFO The soil at the site was highly radioactive after the UFO took off but the U S Air Force tried to hide the fact Why was the intelligence community so anxious to cover up the truth What really happened in Socorro What are the secrets those in power have tried to suppress Ray Stanford s answers to these questions will startle even the most seasoned UFO researcher One of the classics in UFO history Dr J Allen Hynek **Socorro "saucer" in a Pentagon Pantry** Ray Stanford, 1976 **Swamp Gas Times** Patrick Huyghe, 2001-06-01 The UFO Hotspot Compendium Craig Campobasso, 2022-10-01 The definitive UFO hunter s bucket list of legendary and active UFO and alien hotspots in North America The UFO Hotspot Compendium will take you on your own behind the scenes trip to some of the most visited UFO hotspots areas where aliens and cryptids are spotted forbidden scary locations as well as terrifying places only the brave dare to visit Based on first hand information gleaned from MUFON s trained investigators and researchers interviews with people who have had extraordinary UFO experiences and the author s travel to many of the locations this book is a guided tour of thirty five of the most remarkable UFO related sites the when where backstory investigations and things to do when visiting the site Included are MUFON s top twenty five places known for the most UFO sightings legendary spots known for UFO activity alien kitsch sites locations that have the added benefit of sacred retreats and places you might not want to visit but should know about From the Skinwalker Ranch to Area 51 to Joshua Tree The UFO Hotspot Compendium will be a hit with true believers the mildly curious and those intrigued by all things off planet Experience the wonder and terror of alien abduction a spaceship crash or a UFO sighting from the safety of your own home Spin Wave Technology George J. Bugh, 2002 This is a book of informal research papers written by George J Bugh while investigating claims by many inventors and researchers who have built unusual electromagnetic devices said to produce anomalous energy output and even electrogravity effects Mr Bugh is a senior staff aerospace electronics engineer with over 20 years experience He spent the last 7 years studying these claims to determine if any could be valid and if so then to determine the source of the anomalous energy and the electrogravity effects According to classical electrodynamics all electrically charged particles like quarks and electrons should radiate away energy from gyroscopic precessional motions and orbital motions Bugh has come to the conclusion that they really do However all particles are also absorbing just as much energy from all other radiating particles The continuously absorbed energy equals

the radiated energy and applies forces that move similar type particles into harmonious precessional motions with each other This results in a sea of electromagnetic standing waves among all matter in the universe It is this sea of standing waves rather than quantum probability waves that best account for the wave like nature of matter Particles move to quantized states because of electromagnetic forces that keep particle motions synchronized with this sea of standing waves This is an interaction among all matter that Ernst Mach alluded to as necessary to cause matter s characteristic of inertia Einstein called this Mach s Principle Einstein studied Mach s ideas while developing his theory of General Relativity Using common sense and classical electrodynamics Bugh explains how these particle spin interactions are possible even among compensating spins Technology advancements are possible based on these particle spin interactions [Greatest UFO Case File](#) EDITORIAL BOARD,2015-06-01 UFOs or Unidentified Flying Objects have long been a matter of great curiosity and interest for the human habitation on the Earth particularly from June 24 1947 when American pilot Kenneth Arnold reported sighting nine circular objects flying across his airplane s path in the skies over the state of Washington His description of their movements as being like e saucers skipping over the water gave birth to the term flying saucer However objects shaped like cigars squares balls triangles rings and hats have also been reported to have been seen in almost every country of this huge and diverse Living Planet known as the Earth Basically these UFOs are amorphous and shape changing objects The book consists of an interesting list of UFO Encounters by various Air Force Personnels and Scientists across the globe their experiences detailed and exhaustive reports etc It also has an elaborate list of Alien Encounters and Alien Abductions It further gives a detailed and vivid description of the various types of thrilling encounters with these strange Alien ships such as Close Encounters of the First Kind Ce1 Close Encounters of the Second Kind Ce2 Close Encounter of the Third Kind Ce3 Close Encounter of the Fourth Kind Ce4 and so on So friends this book will interest and captivate the minds of one and all irrespective of age sex religion profession and academic qualification although our target audience are the children particularly the school students **Ancient Alien Ancestors** Will Hart,2017-07-18 Explores evidence for the theory of directed panspermia that life on Earth and the landscape of Earth itself was engineered by extraterrestrials Details how the Earth was terraformed through a sophisticated geo engineering program providing clear examples such as the precise mathematical longitude configurations of the Great Pyramid of Giza with the major rivers on Earth Shows how our spectrum of blood types supports the theory of panspermia while directly contradicting the conventional out of Africa theory of evolution Examines the strongest modern UFO accounts including the Russian Roswell case as well as the suppressed UFO sightings of NASA astronauts In the early 1970s Nobel Prize winning DNA co discoverer Sir Francis Crick and his colleague Leslie Orgel proposed that in the distant past an extraterrestrial race sent a spacecraft loaded with microorganisms to seed the Earth with life Now more than 40 years later the fields of space research and biotechnology have advanced to the point where they can back up Crick and Orgel s claims about our ancient alien ancestors Sharing scientific evidence of alien

involvement with life on our planet and with the very landscape of Earth itself Will Hart refines the theory of directed panspermia that life was intentionally seeded on Earth by extraterrestrials to reveal that the same ET agency also created humans and generated civilization He shows how the Earth was terraformed through an engineering program so sophisticated and vast that it has escaped our attention so far for example the major rivers on Earth are precisely aligned through geo engineering with the Great Pyramid of Giza Revealing the Great Pyramid as an alien message in stone the author explains how the Giza pyramids could not have been built by the ancient Egyptians and examines the extraterrestrial energy technologies used to move the pyramids massive stone blocks methods later rediscovered by Nikola Tesla and the builder of Coral Castle Edward Leedskalnin He details how an advanced race implanted the basic genome on Earth as well as genetically engineered the human race and shows how our spectrum of blood types supports the theory of panspermia while directly contradicting the conventional out of Africa theory of evolution Investigating how the extraterrestrial agency behind the origin of civilization is still working behind the scenes today the author examines the strongest modern UFO accounts including the Russian Roswell case and the suppressed UFO sightings of NASA astronauts He shows that this advanced ET civilization is not an alien race in the way we normally think of aliens they are our ancestors and as human as we are

UFOs and the Extraterrestrial Contact Movement: Unidentified flying objects George M.
