Wittgenstein's Philosophy of Mind (Routledge Revivals) Ashok Vohra, 2014-04-08 Philosophers since Descartes have felt themselves compelled to make a choice between mind and body Wittgenstein's Philosophy of Mind first published in 1986 argues that there is no genuine epistemological problem of mind and that the widespread philosophical scepticism with regard to our knowledge of other minds is without foundation Ashok Vohra applies Wittgenstein's method to show that the problem has arisen through a tendency to over philosophise our simple experiences Vohra presents a positive account of Wittgenstein's philosophy of mind arguing that to consider his philosophy entirely destructive is misleading He shows that knowledge of mind is gained through a large complex of intersubjectively identifiable factors such as the linguistic and non linguistic past present and future behaviour of the person concerned He thus justifies the belief on which psychology and psychoanalysis are based that mind is not a mystery to which only the owner has privileged access

Reading for Living Health, **Berkeley's Argument for Idealism** Samuel C. Rickless, 2013-01-10 Samuel C Rickless presents a novel interpretation of the thought of George Berkeley In A Treatise Concerning the Principles of Human Knowledge 1710 and Three Dialogues Between Hylas and Philonous 1713 Berkeley argues for the astonishing view that physical objects such as tables and chairs are nothing but collections of ideas idealism that there is no such thing as

material substance immaterialism that abstract ideas are impossible anti abstractionism and that an idea can be like nothing but an idea the likeness principle It is a matter of great controversy what Berkeley s argument for idealism is and whether it succeeds Most scholars believe that the argument is based on immaterialism anti abstractionism or the likeness principle In Berkeley s Argument for Idealism Rickless argues that Berkeley distinguishes between two kinds of abstraction singling abstraction and generalizing abstraction that his argument for idealism depends on the impossibility of singling abstraction but not on the impossibility of generalizing abstraction and that the argument depends neither on immaterialism nor the likeness principle According to Rickless the heart of the argument for idealism rests on the distinction between mediate and immediate perception and in particular on the thesis that everything that is perceived by means of the senses is immediately perceived After analyzing the argument Rickless concludes that it is valid and may well be sound This is Berkeley s most enduring philosophical legacy
