 What is culture How do you tell other people about your national culture How do you talk about the culture of the
 organisation where you work or study It is becoming increasingly recognised that intercultural communication skills are a
 vital component in successful international communication These questions and other important cultural issues are raised in
 this photocopiable resource book which aims to develop intercultural awareness and competence through 50 different
 activities Each activity is accompanied by thorough notes for the teacher explaining the procedure and possible outcomes
 and providing suggestions for further reading The book also features a useful introduction to the subject of intercultural
 communication and a reading list How Do Teachers Communicate? Joseph L. McCaleb,1987 The primary task of the
 monograph is to describe and evaluate the conceptualizations of communication found in assessment practices The first
 chapter contains a review and analysis of standardized measures and performance assessments of teachers communication
 Twelve communication categories emerge from an inspection of the performance assessments The numerous meanings given
 to communication are elaborated by an examination of differences within each category The second chapter focuses on
 theory and research The literature on instructional communication is examined and a model is developed with five critical
 skill areas It is shown how these areas are used for five functions or purposes and in different modes or patterns of
 communicating The final three chapters discuss limitations in current measures of communication The perspective of the
 communication theorist and linguist is used to identify important dimensions of communication that have received little if any
 attention in the assessments The claim that most performance assessments are grounded in research on teaching
 effectiveness is explored and relationships between the assessments and the research are cited Limitations of that research
 paradigm are identified and implications for communication from an information processing model are discussed JD
