The Dictionary Of Composers:

The Dictionary of Composers Charles Osborne,1980 **The Dictionary of Composers and Their Music** Eric Gilder,June G. Port,1978 A perfect gift for an admirer of classical music this indispensable volume condenses seven hundred years of classic music history and covers periods from Baroque to Contemporary in an easy to use format [The Dictionary of Composers and Their Music](#) Eric Gilder,1993 A perfect gift for an admirer of classical music this indispensable volume condenses seven hundred years of classic music history and covers periods from Baroque to Contemporary in an easy to use format **Essential Dictionary of Composers** L. C. Harnsberger, This Handy Guide functions as an easy to use historical reference book both educational and fun It provides important information on composers spanning from the middle ages to contemporary pop Every entry contains basic facts such as dates and historical periods of music as well as additional items of interest and importance *Historical Dictionary of Music of the Classical Period* Bertil H. Van Boer,2012-04-05 When we speak of classical music it often refers rather loosely to serious art music but at the core is really the music of the classical period running from about 1730 to 1800 give or take This was truly one of the most glorious periods for both composition and performance and it is this classical music which is still at the core of today s repertoire Obvious names connected with this period are Haydn Mozart and Beethoven but there were many more still reasonably well known like Gluck and C P E Bach and dozens more who are regrettably little known today This Historical Dictionary of Music of the Classical Period includes not only these composers but also eminent conductors and performers patrons and publishers There are also dictionary entries on major centers of music making typical instruments important technical terms and emerging musical forms including the symphony and opera Indeed with a 1 000 cross referenced entries there is information on most matters of interest This is prefaced by an extensive chronology tracing the course of this period from year to year and an introduction taking a careful look at the period as a whole Finally there is a substantial bibliography Surely this is a book which will appeal not only to students and researchers but all music lovers [Dictionary of American Classical Composers](#) Neil Butterworth,2013-10-02 The Dictionary of American Classical Composers covers over 650 composers active from the 18th century to today Covering all classical styles it offers the most comprehensive overview of key composers in the United States available Entries include basic biographical information and critical analysis of each composer s key works and ideas Entries also include worklists and bibliographic information Whenever possible the entries will have been checked by the composers themselves to assure greatest possible accuracy This new edition completely updated and expanded from the 1984 edition also includes over 200 historic photographs **Essential Dictionary of Music** L. C. Harnsberger,2005-05-03 A useful collection of definitions composers and theory This pocket sized reference book includes a broad range of important information from basic principles of theory and concise biographies of composers to pronunciations of foreign terms and ranges of instruments and voices This easy to use volume covers every major aspect of music Includes over 330 pages

Dictionary of Composers Eric Gilder,1987 The Dictionary of Composers : Edited by Charles Osborne Charles Osborne,1977 Historical Dictionary of Modern and Contemporary Classical Music Nicole V. Gagné,2019-07-17 The contemporary music scene thus embodies a uniquely broad spectrum of activity which has grown and changed down to the present hour With new talents emerging and different technologies developing as we move further into the 21st century no one can predict what paths music will take next All we can be certain of is that the inspiration and originality that make music live will continue to bring awe delight fascination and beauty to the people who listen to it This book cover modernist and postmodern concert music worldwide from the years 1888 to 2018 This second edition of Historical Dictionary of Modern and Contemporary Classical Music contains a chronology an introduction and an extensive bibliography The dictionary section has over 500 cross referenced entries on the most important composers musicians methods styles and media in modernist and postmodern classical music worldwide from 1888 to 2018 This book is an excellent resource for students researchers and anyone wanting to know more about modern and contemporary classical music **Contemporary American Composers** ,1982 *Historical Dictionary of Baroque Music* Joseph P. Swain,2013-06-06 Although it lies far back running roughly from about 1600 to 1750 the Baroque period is far from forgotten and Baroque music is played widely today as well exercising numerous musicians and attracting rather substantial audiences It experienced the emergence of a new sort of music increasingly secular and increasingly good listening if you will and also the start of opera Some of the Baroque composers appear among the most popular of all time such as Bach Handel and Vivaldi So yes this is a book for researchers but it is also a good book for anyone who enjoys this music The Historical Dictionary of Baroque Music certainly fills a significant space in the whole sub series on music since it tells us much more not only about the music but also the age that generated it This is done particularly well in an insightful introduction with the flow of events traced by the chronology The dictionary section fills in the missing details with over 400 entries on the most important composers and musicians some of the musical works themselves important places and institutions and a smattering of technical terms The bibliography directs us to further reading **The Norton/Grove Dictionary of Women Composers** Julie Anne Sadie,Rhian Samuel,1994 Throughout history women have been composing music but their achievements have usually gone unrecognized

Dictionary of Composers for the Church in Great Britain and Ireland Maggie Humphreys,Robert Evans,1997-01-01 A dictionary containing 3500 biographical entries each representing a composer whose work has been used within the worship of the church in Britain and Ireland **Historical Dictionary of Music of the Classical Period** Bertil van Boer,2024-12-30 Historical Dictionary of Music of the Classical Period Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 600 cross referenced entries on composers conductors instruments important technical terms and emerging musical forms lo *Soundtracks* STEWART R. CRAGGS,2019-05-31 First published in 1998 music scored for film has only relatively recently received the critical attention which it merits Many

composers in the twentieth century have written works for films or documentaries a number feeling that this aspect of their output has been undervalued This dictionary complements other studies which have appeared in recent years which look at the technical and theoretical issues concerned with film music composition Arranged alphabetically by composer the volume comprises over 500 entries covering all nationalities Each entry includes very brief biographical information on the composer followed by a list of the films with dates for which he or she has composed Details of recordings are also given The dictionary's international coverage ensures that it will become a standard reference work for all those interested in the history of twentieth century music and the development of film

Latin American Classical Composers Martha Furman Schleifer, Gary Galván, 2016-01-28 Now in its third edition Latin American Classical Composers A Biographical Dictionary provides a singular English language resource for biographical information on hundreds of composers from Central and South America and the Hispanic Caribbean Painstakingly gathered from a wide variety of sources the information updates and expands previous editions and fills in the gaps left by the other major English language music dictionaries and encyclopedias Entries provide biographical data comprising full names birth and death dates and locations background education and training as well as selective works lists more than 2 300 composers An index of composers by country and women composers of Latin America complement the volume An essential part of any music library Latin American Classical Composers is an invaluable reference for librarians musicologists ethnomusicologists researchers and music students
