The Romance Of Flamenca:

The Romance of Flamenca E. D. Blodgett, 1995 Various described as a comedy of manners a psychological romance and a type of fabliau the 13th century narrative Flamenca is the best medieval romance written in Occitan Its uniqueness springs from qualities that anticipate the preoccupations of modern day narrative Not content with being a love story fraught with risk and intrigue the poem is layered with responses to the troubadour tradition of love and poetry as well as the Bible and the classics Though among the most bookish of romances its tone is invariably ironic comic and satirical This playfulness may be measured by the variety and vehemence of critical response to the poem Is it a vindication of the troubadour ideal a mockery of the Church a satire on jealous husbands or an undermining of the ideals that romance is said to inscribe Or is it all of these elements held in suspense The introduction confronts these questions provided by publisher [The Romance of Flamenca: a Provençal Poem of the Thirteenth Century](#) Bernardet, troubadour, 13th cent, Flamenca, Merton Jerome Hubert, Porter, Marion E, 1962 [The Romance of Flamenca](#) Marion E. Performing Medieval Narrative Evelyn Birge Vitz, Nancy Freeman Regalado, Marilyn Lawrence, 2005 Broad and wide ranging survey of and investigation into the important question of whether medieval narrative was designed for performance This book provides the first comprehensive study of the performance of medieval narrative using examples from England and the Continent and a variety of genres to examine the crucial question of whether and how medieval narratives were indeed intended for performance Moving beyond the familiar dichotomy between oral and written literature the various contributions emphasize the range and power of medieval performance traditions and demonstrate that knowledge of the modes and means of performance is crucial for appreciating medieval narratives The book is divided into four main parts with each essay engaging with a specific issue or work relating it to larger questions about performance It first focuses on representations of the art of medieval performers of narrative It then examines relationships between narrative performances and the material books that inspired recorded or represented them The next section studies performance features inscribed in texts and the significance of considering performability The volume concludes with contributions by present day professional performers who bring medieval narratives to life for contemporary audiences Topics covered include orality performance storytelling music drama the material book public reading and court life
