The Sailmakers Daughter:

The Athenaeum ,1807 **The Monthly magazine** Monthly literary register,1810 [The Autobiography of Ashley Bowen \(1728-1813\)](#) Daniel Vickers,2006-08-08 The first American sailor known to write his own autobiography Ashley Bowen remains a valuable storyteller who can speak to today s readers about the maritime world in the age of sail Ashley Bowen began his seafaring career at the age of eleven After leaving the sea Bowen spent the rest of his days as a ship rigger in Marblehead Massachusetts A witness to significant historical events including the British conquest of Canada and the American Revolution Ashley Bowen confounds today s audience with his eighteenth century interpretation of events an interpretation informed by his deeply religious beliefs and his suspicion of Yankee patriotism The Broadview edition is the first to present the story of Ashley Bowen as a continuous narrative Vickers introduction provides the context for Bowen s life in colonial New England and additional writings by Ashley Bowen and his Marblehead contemporaries are included The appendices include Bowen s diary accounts of his experiences in the 1759 British expedition against Quebec smallpox epidemics and the American Revolution *The Monthly Magazine* ,1810 *The Sailmakers Daughter* Stephanie Johnson, **Forthcoming Books** Rose Army,2003 **Motorboating - ND** ,1947-07 **A History of the Stanwood Family in America** Ethel Stanwood Bolton,1899 *The Sail Magazine Book of Sailing* Peter Johnson,1989 Provides a detailed history of the sport of sailing from the 17th century to 20th century feats of circumnavigations *Genealogical and Biographical Record of New London County, Connecticut* ,1905 **Patronage and the British Navy, 1775-1815** Catherine Beck,2025-01-21 Argues that patronage served a very useful function and should not be seen as a form of corruption This book based on extensive original research examines the rich and varied nature of patronage in the British navy at the end of the long eighteenth century Patronage underpinned naval advancement determined where officers seamen and dockyard workers were stationed and fashioned their reputations It was also a system of trust whereby an individual s connections acted as guarantors of their ability character and suitability for a position This book moves beyond considering patronage as being primarily about promotion to uncover its deeper social and cultural implications Considering not just the officer class but also warrant officers ordinary seamen and dockyard tradesmen and workers it reveals the fuller extent of naval patronage as it operated between both elite and non elite men and women within all forms of friendship not just professional or political alliances and beneath veneers of fashionable sensibility duty and honour Historians of the navy in this period are well aware of the importance of patronage but the subject has never previously been studied in such detail The book will be very welcome for uncovering the full nature of patronage both for naval historians and also for cultural and social historians interested in the period more generally Catherine Beck completed her doctorate at University College London in collaboration with the National Maritime Museum *The Journals of Captain James Cook on his Voyages of Discovery* J.C. Beaglehole,2017-07-05 Captain James Cook s first two voyages of exploration in 1768 71 and 1772 75 had drawn the modern

map of the South Pacific Ocean and had opened the door on the discovery of Antarctica. These expeditions were the subject of Volumes I and II of Dr J C Beaglehole's edition of Cook's Journals. The third voyage on which Cook sailed in 1776 was directed to the Northern Hemisphere. Its objective was the discovery of a Northern Passage by sea from the Pacific to the Atlantic Ocean, the North West Passage sought since the 16th century, which would have transformed the pattern of world trade. The search was to take Cook into high latitudes where, as in the Antarctic, his skill in ice navigation was tested. Sailing north from Tahiti in 1778, Cook made the first recorded discovery of the Hawaiian Islands. On March 7 he sighted the Oregon coast in 44°N. The remarkable voyage which he made northward along the Canadian and Alaskan coasts and through Bering Strait to his farthest north in 70°N nearly disproved the existence of a navigable passage towards the Atlantic and produced charts of impressive accuracy. Returning to Hawaii to refit, Cook met his death in a clash with the natives as tragic as it seems unnecessary. Dr Beaglehole discusses with sympathy and insight the tensions which led Cook, by then a tired man, into miscalculations alien to his own nature and habits. The volume and vitality of the records, both textual and graphic, for this voyage surpass those even for Cook's second voyage. The surgeons William Anderson and David Samwell, both admirable observers, left journals which are also here printed in full for the first time. The documentation is completed, as in the previous volumes, by appendixes of documents and correspondence and by reproductions of original drawings and paintings, mainly by John Webber, the artist of the expedition. In Dr Beaglehole's words, no one can study attentively the records of Cook's third and last voyage.

Bitter Bonds Leonard Blussé, 2002. In 17th century Batavia, Cornelia van Nijenroode, the daughter of a geisha and a Dutch merchant in Japan, was known as Otemba, meaning untamable, which made her a heroine to modern Japanese feminists. A wealthy widow and enterprising businesswoman who had married an unsuccessful Dutch lawyer for social reasons, she discovered that just after her wedding she and her husband were at each other's throats. Cornelia

A Gentleman of Color: The Life of James Forten Boston, Julie Winch, Professor of History, University of Massachusetts, 2002-01-24. In A Gentleman of Color, Julie Winch provides a vividly written full-length biography of James Forten, one of the most remarkable men in 19th-century America. Forten was born in 1766 into a free black family. As a teenager, he served in the Revolution and was captured by the British. Rejecting an attractive offer to change sides, he insisted he was a loyal American. By 1810, he was the leading sailmaker in Philadelphia, where he became well-known as an innovative craftsman, a successful manager of black and white employees, and a shrewd businessman. He emerged as a leader in

Philadelphia's black community and was active in a wide range of reform activities. He was especially prominent in national and international antislavery movements, served as vice president of the American Anti Slavery Society, and became close friends with William Lloyd Garrison, to whom he lent money to start up the *Liberator*. Forten was also the founder of a remarkable dynasty. His children and his son-in-law were all active abolitionists, and a granddaughter, Charlotte Forten, published a famous diary of her experiences teaching ex-slaves in South Carolina's Sea Islands during the Civil War. When James Forten died in 1842, five thousand mourners, black and white, turned out to honor a man who had earned the respect of society across the racial divide. This is the first serious biography of Forten, who stands beside Harriet Tubman, Frederick Douglass, Booker T. Washington, and Martin Luther King Jr. in the pantheon of African Americans who fundamentally shaped American history.
