into motion Then there are the scientists who sounded the alarm once they identified carbon dioxide as the culprit of our warming planet And we meet the hucksters zealots and crackpots who lied about that science and misled the public in ever more outrageous ways Lipsky masterfully traces the evolution of climate denial exposing how it grew out of early efforts to build a network of untruth about products like aspirin and cigarettes Featuring an indelible cast of heroes and villains mavericks and swindlers The Parrot and the Igloo delivers a real life tragicomedy one that captures the extraordinary dance of science money and the American character
