The Comeback Kids--Book 11--The Wild Mustangs Penelope Dyan, 2013-02-01 The mustangs are the free roaming horses of the North American west They first descended from the horses brought to North America by the Spaniards Most mustang aficionados refer to mustangs as wild horses Those who consider the mustangs to be nothing more than pests introduced into the ecosystem after the disappearance of the true North American wild horse in the ice age Equus ferus ferus call them feral because they descended from horses once domesticated and also because they want the land and resources for domestic cattle In every sense the mustangs have returned to their original wild state however as they can survive without the help or hinderance of man who once drove them off cliffs used them as a food source and discarded them on this continent once their use was no longer needed They are a part of our history and in 1971 the United States Congress recognized Mustangs as the living symbols of the historic and pioneer spirit of the West that they are The herds vary in the degree to which they can be traced to original Iberian horses brought to these shores by the Spanish and some contain a stronger genetic make up of ranch stock and other breeds the species having interbred with either abandoned stock or escaped domestic stock Those herds in isolated locales are genetically closer to original Spanish Iberian stock Mustangs are beautiful creatures whose future although today still debatable that have survived though abandonment slaughter and worse However in spite of everything they have managed to adapt and survive making them true Comeback Kids Enjoy the photographs of John D Weigand and the poetry of award winning author attorney and former teacher Penelope Dyan investigate and then ask yourself whether the mustangs have restored an ecological balance interrupted by the ice age or whether they do not belong here at all and then ask yourself whether we belong here at all having brought them here Perhaps we are the feral pests and not the mustangs

Velma Bronn Johnston 1912-77 who loved mustangs all her life. When she saw mustangs being rounded up and killed to make room for ranchers' livestock, she knew she had to speak up. In 1950 she began writing letters to local newspapers and politicians defending the horses' right to roam free. Many people told Annie to hush up, but they couldn't stop her. She soon became a voice for mustangs throughout the state of Nevada, speaking on their behalf at town halls and meetings. But Annie was only one person and she wanted to do more. So she got children to speak up too by having them write letters to Washington D.C. officials to ask them to save the mustangs. Finally, with the help of her young pencil brigade, Annie persuaded Congress to pass nationwide laws protecting wild horses and burros on public land nationwide. Readers will find inspiration in author Tracey Fern and artist Steven Salerno's portrait of an early animal rights advocate who spoke up for what she believed in and empowered a generation of children to be a voice for the voiceless.

Little Pinto and the Wild Horses Of Mustang Canyon Jonathan London, 2017-09-12. What could be more thrilling than to run with a band of wild mustangs and to share Little Pinto's instinct to survive. Deep in the heart of the canyon, Little Pinto is just three weeks old. Still a bit unsteady on his feet, he must be ready to travel with his family, a band of rare wild mustangs, as they search for water along the desert flats. Led by the colt's father, Old White Face, the band roams freely but must always be alert for signs of danger. At his signal, they are ready to scatter to safety, whether a strange stallion threatens or a whining plane swoops overhead. But can Little Pinto keep up?
