Wisdom From Africa

Ronald D. Burris, 2016-10-20 This book offers an in depth analysis and theological reflection on the thirteen books of Augustine's Confessions It seeks to cover the major points raised by Augustine in his Confessions and discuss them in a way that will give insight and encouragement to the reader This work does not propose to reflect on every section of every book of the Confessions but rather to discuss the major points noted in each book In addition thoughtful questions are listed at the end of each chapter to stimulate further discussion and hopefully encourage personal questions as well Because Augustine's Confessions are an honest assessment of his failures as well as his final victory in Christ there is something for everyone in the pages of this work

Moral Theology of the Confessions of Saint Augustine John F.
