The Withering of Public Access Trevor Haywood, Library Association, 1989 **Theories of the Information Society** Frank Webster, 2007-01-24 Coping in an era of information flows of virtual relationships and breakneck change poses challenges to one and all In *Theories of the Information Society* Frank Webster makes sense of the information explosion taking a sceptical look at what thinkers mean when they refer to the Information Society and critically examines the major post war theories and approaches to informational development This third edition brings the book right up to date with both new theoretical work and social and technological changes such as the rapid growth of the Internet and accelerated globalization reassessing the work of key theorists in light of these changes This book is essential reading for students of contemporary social theory and anybody interested in social and technological change in the post war era It addresses issues of central concern to students of sociology politics communications information science cultural studies computing and librarianship *Theories of the Information Society* Professor Frank Webster, Frank Webster, 2002-05-03 Information has come to be regarded as a symbol of the age in which we live Talk nowadays is of an information technology revolution even of an information society But just what does this mean In *Theories of the Information Society* Frank Webster sets out to make sense of the information explosion He examines and assesses a variety of images of the information society and takes a sceptical look at what thinkers mean when they do refer to an information society He looks closely at different approaches to informational developments and provides critical commentaries on all the major post war theories **Theories of the Information Society** , *In the Marketplace for Knowledge* Nicholas Fox, 1991 **Preview** , 1989 **Intelligence Work** Jonathan Kahana, 2008-07-07 *Intelligence Work* establishes a new genealogy of American social documentary proposing a fresh critical approach to the aesthetic and political issues of nonfiction cinema and media Jonathan Kahana argues that the use of documentary film by intellectuals activists government agencies and community groups constitutes a national public form of culture one that challenges traditional oppositions between official and vernacular speech between high art and popular culture and between academic knowledge and common sense Placing iconic images and the work of celebrated filmmakers next to overlooked and rediscovered productions Kahana demonstrates how documentary collects and delivers the evidence of the American experience to the public sphere where it lends force to political movements and gives substance to the social imaginary *Public Libraries* , 1990 *Compilation of Titles Published by ALA Units* American Library Association, 1991 *The Limits of Tolerance* Ann Curry, 1997 The library controls access to information by the very act of selecting materials and must therefore deal with censorship on a basic level The author has surveyed a response group of practicing librarians with questions that target some of the toughest questions librarians ever face Curry s analysis focuses on the factors personal beliefs professional ethics political pressures that influence responses **Libri** , 1994 Vols 4 24 include Communications of the International Federation of Library Associations IFLA FIAB *The Politics of Dispossession*

Edward W. Said, 2012-10-24 Author of the groundbreaking *The Question of Palestine* Edward Said has been America's most outspoken advocate for Palestinian self-determination. As these collected essays amply prove, he is also our most intelligent and bracingly heretical writer on affairs involving not only Palestinians but also the Arab and Muslim worlds and their tortuous relations with the West. Solidly imbued with historical context and geopolitical conjecture, fresh, unpredictable, personal, and incorruptible writing. *Boston Globe*. In *The Politics of Dispossession*, Said traces his people's struggle for statehood through twenty-five years of exile from the PLO's bloody 1970 exile from Jordan through the debacle of the Gulf War and the ambiguous 1994 peace accord with Israel. As frank as he is about his personal involvement in that struggle, Said is equally unsparing in his demolition of Arab icons and American shibboleths. Stylish, impassioned, and informed by a magisterial knowledge of history and literature, *The Politics of Dispossession* is a masterly synthesis of scholarship and polemic that has the power to redefine the debate over the Middle East. Civil Society and the Political Imagination in Africa John L. Comaroff, Jean

Comaroff, 1999 The essays in this important new collection explore the diverse, unexpected, and controversial ways in which the idea of civil society has recently entered into populist politics and public debate throughout Africa. In a substantial introduction, anthropologists Jean and John Comaroff offer a critical theoretical analysis of the nature and deployment of the concept and the current debates surrounding it. Building on this framework, the contributors investigate the problem of civil society across their regions of expertise, which cover the continent. Drawing creatively on one another's work, they examine the impact of colonial ideology, postcoloniality, and development practice on discourses of civility, the workings of everyday politics, the construction of new modes of selfhood, and the pursuit of moral community. Incisive and original, the book shows how struggles over civil society in Africa reveal much about larger historical forces in the post-Cold War era. It also makes a strong case for the contribution of historical anthropology to contemporary discourses on the rise of a new world order.
