Schwartz, Tedi Asher, Christopher Jones, Lan Morgan, Tony Oursler, Jennifer Lemmer Posey, Mark Schwartz, 2024-09-03 Posters photography and objects from the height of Spiritualism and the history of magic gain renewed power when seen through today's lens The human desire to connect with the dead since the mid 19th century gave rise to a fascination with the supernatural and the magical Mediums and magicians from Harry Houdini Margery the Medium Howard Thurston and the Fox Sisters offered communication with the departed at séances and magic shows two interrelated forms of popular culture that relied heavily on illusions and stagecraft This is the first illustrated volume to gather the art and objects that made medium and magician performances iconic during the Spiritualism movement and beyond a time when people actively debated and wondered can spirits return An international selection of paintings photographs posters stage apparatuses film publications and other objects reveal how audiences were entranced and mystified by these experiential performances captivating willing believers and garnering skeptics as they navigated the intersecting realms of science and spirituality From the origins of the iconic Ouija board to spirit photography this book is a treasure trove **The Medical World**, 1898 The Household monitor of health John Harvey Kellogg, 1891 **Catalogue of (printed) music. Music. Accessions, pt.[1]-94** British museum dept. of pr. books, 1884 **Gastro-Postcolonialism Metaphysical Symbols in Brand Communication** Oya AYAN, 2023-09-05 This thesis brings together three topics that we want to search brand communication gastronomy metaphysics After completing my master's degree in marketing communications what I always had in mind was the new trends in advertising communication with the globalization of the 21st century In the design of the advertisement not only the use of elements in communication technologies but also the philosophical background in its fabric attracted my attention In this context I began to sense that there might be mythological approaches in the chemistry of advertising messages that gained importance in social media In the postmodern environment of the 21st century food nutrition culinary arts and to put it briefly gastronomy became the dominant language of communication Moreover it caused kitchen wars by becoming politicized In line with my interest in gastronomy I wanted to focus on food advertisements I started to ask myself to what extent the fast food trend that marked the 21st century was changing the Global Society Interestingly I started to observe that there were metaphysical images that were reflected from ancient wisdom to the present day in McDonald's brand communication This problem which has not been studied much yet was an important exercise for me in terms of analyzing the Global Society as a doctoral thesis

I can say that doing the analysis in the light of semiology as a method has broadened my horizon by directing me to an interdisciplinary perspective I would like to acknowledge Communication Sciences and the Internet Institute which allowed me to make such a significant study Prof Dr Mete amdereli who supported me with great excitement in all phases of my thesis Prof Dr Emine Yava gel who made great contributions to deepen my research subjects in the monitoring of the thesis In addition I would like to thank Prof Dr Mim Kemal ke from whose suggestions I benefited in the historical context I am also indebted to my colleagues and friends especially my family who buoyed me up and supported me during the research and writing process of my thesis which lasted more than 2 years I hope this study will be useful and inspire new studies in this field
