## **The Woman's Age:**

**Ages of Woman, Ages of Man** Merry Wiesner Hanks, Monica Chojnacka, 2014-06-11 The collection is organized around two main principles stages of life and gender and is divided into eight chapters childhood youth and sexuality courtship and weddings married life economic life networks and communities and widowhood and old age The sources address the numerous and varied ways in which women and men's notions of themselves affected their lives and explore how accepted norms of masculine and feminine behaviour influenced social economic and religious change Guided by a general editors introduction and then an introduction to each chapter the user will find this an invaluable reference companion to early modern gender history *The Woman's Age* F. Homer Curtiss, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world's literature in affordable high quality modern editions that are true to the original work The Woman's Medical Journal, 1897 **Fertility, Family Planning, and Reproductive Health of U.S. Women** Anjani Chandra, 2005 **The Importance of Women's Status for Child Nutrition in Developing Countries** Lisa C. Smith, 2003 Until recently the role of women's social status in determining their children's nutritional health went largely unnoticed That is until researchers began to ponder the Asian Enigma the question of why malnutrition is much more prevalent among children in South Asia than in Sub Saharan Africa even though South Asia surpasses Sub Saharan Africa in most of the principal determinants of child nutrition This report uses data from 36 countries in three developing regions to establish empirically that women's status defined as women's power relative to men's is an important determinant of children's nutritional status It finds that the pathways through which status influences child nutrition and the strength of that influence differ considerably from one region to another Where women's status is low this research proves unequivocally that policies to eradicate gender discrimination not only benefit women but also their children *Simulation model of women under social security* Robert E. Pugh, Tom A. Silberman, 1978 **Fertility, Family Planning, and Women's Health** Joyce C. Abma, 1997 The report shows data on a wide range of topics including pregnancy and birth marriage divorce cohabitation sexual intercourse contraception infertility use of family planning and other medical services and health conditions and behavior The data are based on in person interviews with a national sample of 10 847 women 15-44 years of age Among the results the proportion of teenagers who have ever had sexual intercourse decreased slightly between 1990 and 1995 and about 8 percent of women reported that their first intercourse was not voluntary Annotation copyrighted by Book News Inc Portland OR Littell's Living Age, 1920 *The Woman's Journal*, 1925 Vital and Health Statistics, 2001 *The Woman's Guide to Hysterectomy* Adelaide Haas, Susan L.
