The Work Of Robert Adam:

The Work of Robert Adam Geoffrey Beard, Robert Adam, 1978 *Robert Adam, Artist and Architect* Percy Hetherington Fitzgerald, 1904 **The Decorative Work of Robert Adam** Damie Stillman, Robert Adam, 1966 Robert Adam, Artist and Architect Percy Hetherington Fitzgerald, 2017-07-05 Excerpt from Robert Adam Artist and Architect His Works and His System It will be seen from the list of societies to whom I retailed my Adam story that I went pretty far afield and brought the subject before a fairly representative audience These were The Society of Arts who gave me the silver medal for my performance The Society for the Encouragement of the Fine Arts The London Society of Architects The Architectural Societies of Edinburgh Manchester Liverpool Oxford Glasgow Newcastle Carlisle Birmingham Dublin Hull York Bath Sheffield These visits were exceedingly interesting I was always cordially received and I could see that the hearers were much interested in a subject to which hitherto but little attention had been paid It was a difficult and even awkward situation to be speaking in presence of experts I found the best way was to say out plainly what I thought on the matter and say it boldly without showing hesitation or the fear of falling into mistakes or of displaying one's ignorance My preservation was an unaffected enthusiasm for Adam and all his work with a native instinct for what was artistic At these lectures of mine sometimes the attendance was large at other times rather moderate but the students were always attracted I calculate that on the whole I must have brought the subject within the knowledge of some thousands and many of these must have worked on or have been led to take up the matter to apply it and study it seriously Nor was I slack in the direction of writing From the earliest days old buildings having grace and beauty had always the most extraordinary attraction for me I am ashamed to say none of the boasted scenes of nature the mountains lakes and plains appealed to me in the way that a small ancient town did In a building particularly of the renaissance type there seemed to be something more living and suggestive A well designed building was company it seemed to speak I had a particular delight in the renaissance buildings on account I believe of the sincerity and unobtrusiveness of their ornamentation with a sort of general delicacy of treatment The old classical or Greek elements seemed to me to be a little obtrusive and coarse also a little uninteresting The cornices and pediments stood out and claimed attention noisily To see a picture even of one of these palaces affects one their ornamentation is so telling and yet so retiring Adam's work always offered much of this charm and feeling its detail invariably interested and attracted the eye or set the mind in motion There was always some striking or graceful little arrangement that repaid inspection About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that

With Illustrations** Percy Fitzgerald,Robert ADAM (Architect.),1904 **Dr Johnson's Friend and Robert Adam's Client Topham Beauclerk** David Noy,2016-05-11 Dr Johnson said that he would walk to the ends of the earth to save Beauclerk Other people who claimed to be his friends rejoiced at his early death How did the beautiful youth of Francis Coates 1756 portrait become a man whose greatest claim to fame was causing an infestation of lice at Blenheim Palace through lack of personal hygiene A great grandson of Charles II and Nell Gwyn he lived a privileged life thanks to fortuitously inherited wealth He employed Robert Adam to build him a house at Muswell Hill which has almost completely disappeared from the records of Adam s work due to a dispute about the bill He was one of the leading book collectors of the time with a library of 30 000 volumes whose sale after his death was a major literary event He also used his wealth to indulge interests in science and astronomy and a passion for gambling As a result he ran through his inheritance as quickly as he could sell it falling into ever increasing debt as his lawyer grew richer Beauclerk knew all the leading figures of the British and French Enlightenments He was a friend of Johnson Adam Smith David Hume Horace Walpole Sir Joshua Reynolds John Wilkes and David Garrick He met Rousseau and Voltaire and immersed himself in French salon culture He could charm people when he chose to but did not always try Recently he has been overshadowed by his wife Lady Di n e Spencer whose life by Carola Hicks *Improper Pursuits* 2001 has made her artistic talent and unconventional life well known The story of their adultery and marriage has not previously been told from Beauclerk s point of view and many other inaccuracies have crept into authoritative works such as the ODNB he is regularly and unfairly dismissed as a bad husband This biography shows that he was much more than the close associate of Johnson known from the pages of Boswell a man of widely varied interests from the Grand Tour to the contemporary theatre who lived Enlightenment life to the full in a way which would not have been possible a generation earlier or later Based on research in unpublished letters legal documents and financial records including some concerning the Adam house as well as

published diaries letters and memoirs it shows that he may have left no enduring legacy of his many talents as even his friends admitted but he made the most of all the opportunities available and lived a fascinating life which illuminates every aspect of Georgian elite society from auctions to zoology from care of one's wig to building an observatory and from mishaps in Venice to sea therapy in Brighton

Robert Adam His Brothers John Swarbrick, 2017-11-20 Excerpt from Robert Adam His Brothers Their Lives Work Influence on English Architecture Decoration and Furniture Some years have elapsed since I was invited to become the author Of this book Then I was filled with admiration for some Of the finest works Of the brothers for long I had been generally familiar with their best known undertakings and with the collection of engravings of their work Published in the eighteenth Century and at the beginning of the nineteenth but these had hitherto failed to convey to me an adequate conception of their remarkable ability as designers It was not until I saw the actual works That have been preserved with care in many of the great houses Of this country that I became able to properly appreciate the value Of their work And to ascertain the true position of the brothers among the architects and art workers Of their day In addition to visiting the works Of the brothers in London and the vicinity I have familiarised myself with examples in the more distant parts Of the provinces as well as in both Scotland and Ireland I have also been able whilst upon the Continent to pay Visits to most of the places at which both Robert and James Adam Stayed when engaged abroad upon study and research and in these and Similar ways I have sought to do what in me lay to render this book more useful and of greater interest About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
