The World Connection:

An Introduction to Epistemology - Second Edition Jack S. Crumley II, 2009-07-30 The second edition of Jack Crumley's *An Introduction to Epistemology* strikes a balance between the many issues that engage contemporary epistemologists and the contributions of the major historical figures. He shows not only how philosophers such as Descartes, Hume, Locke, Berkeley, and Kant foreground the contemporary debates but also why they deserve consideration on their own terms. A substantial revision of the first edition, the second edition is even more accessible to students. The new edition includes recent work on contextualism, evidentialism, externalism, and internalism, and perceptual realism, as well as the chapter on coherence theory, which is substantially revised, reflecting recent developments in that area. New to this second edition is a chapter on feminist epistemology, which includes discussions of major positions and themes such as feminist empiricism, feminist standpoint epistemology, postmodern epistemology, and feminist critiques of objectivity. It presents the important contributions of philosophers such as Sandra Harding, Helen Longino, Genevieve Lloyd, and others. Each chapter ends with a list of study questions and readings for further study.

Transnational Connections Ulf Hannerz, 2002-01-04 This work provides an account of culture in an age of globalization. Ulf Hannerz argues that in an ever more interconnected world, national understandings of culture have become insufficient. He explores the implications of boundary crossings and long distance cultural flows for established notions of the local community, nation, and modernity. Hannerz not only engages with theoretical debates about culture and globalization but raises issues of how we think and live today. His account of the experience of global culture encompasses a shouting match in a New York street about Salman Rushdie, a papal visit to the Maya Indians, kung fu dancers in Nigeria, and Rastafarians in Amsterdam, the nostalgia of foreign correspondents, and the surprising experiences of tourists in a world city or on a Borneo photo safari.

Connection Generation Iggy Pintado, 2009 A fascinating and remarkable study of how connection affects our place in society and business, and the challenges and opportunities this connectedness presents.
