The Wrong Face:

Forensic Face Matching Markus Bindemann, 2021-01-07 In everyday life we identify faces regularly and seemingly with great ease. One might assume this to be a straightforward and highly accurate task. However, we are poor at identifying the faces of unfamiliar people who we have never met before, despite the fact that many important everyday tasks depend on this. Forensic face matching requires the comparison of two face photographs of a person who is not known to the observer. This seemingly simple task is critical for a wide range of security tasks such as person identification at airports and borders, passport issuance and renewal, and criminal identification in police investigations. Despite its ubiquity, face matching is highly prone to error, even under conditions that are designed to maximally facilitate this task. For this reason, face matching has been studied extensively in Psychology, with the bulk of the research conducted since 2010. Forensic face Matching provides readers with a wide-ranging, detailed, and critical overview of facial comparison and face matching, providing insights into its application, efficacy, and limitations in occupational settings, and of current scientific knowledge of this task. **Image and**

Video Retrieval Wee-Kheng Leow, Michael S. Lew, Tat-Seng Chua, Wei-Ying Ma, Lekha Chaisorn, Erwin M. Bakker, 2007-05-22 It was our great pleasure to host the 4th International Conference on Image and Video Retrieval (CIVR) at the National University of Singapore on 20-22 July 2005. CIVR aims to provide an international forum for the discussion of research challenges and exchange of ideas among researchers and practitioners in image/video retrieval technologies. It addresses innovative research in the broad field of image and video retrieval. A unique feature of this conference is the high level of participation by researchers from both academia and industry. Another unique feature of CIVR this year was its format, which offered both the traditional oral presentation sessions as well as the short presentation cum poster sessions. The latter provided an informal alternative forum for animated discussions and exchanges of ideas among the participants. We are pleased to note that interest in CIVR has grown over the years. The number of submissions has steadily increased from 82 in 2002 to 119 in 2003 and 125 in 2004. This year we received 128 submissions from the international communities, with 81 (63.3%) from Asia and Australia, 25 (19.5%) from Europe, and 22 (17.2%) from North America. After a rigorous review process, 20 papers were accepted for oral presentations and 42 papers were accepted for poster presentations. In addition to the accepted submitted papers, the program also included 4 invited papers, 1 keynote industrial paper, and 4 invited industrial papers. Altogether, we offered a diverse and interesting program addressing the current interests and future trends in this area.

Cole Porter: Selected Lyrics Cole Porter, 2024-11-12 Cole Porter possessed to a singular degree the art of expressing depth through apparent frivolity. The effervescent wit and technical bravura of his songs are matched by their unguarded revelations of feeling. In the words of editor Robert Kimball, Porter wrote tellingly of the pain and evanescence of emotional relationships. He gently mocked propriety and said that few things were simple or lasting or free from ambiguity. Of the masters of twentieth-century American songwriting, Porter was one of the few who wrote both music and lyrics, and even in

the absence of his melodies his words distill an unmistakable mixture of poignancy and wit that marks him as a genius of light verse Selected from over eight hundred songs here are Porter s finest flights of invention lyrics that are an indelible part of 20th century culture Let s Do It Love for Sale I Get a Kick Out of You Anything Goes In the Still of the Night I Concentrate on You and dozens more About the American Poets Project Elegantly designed in compact editions printed on acid free paper and textually authoritative the American Poets Project makes available the full range of the American poetic accomplishment selected and introduced by today s most discerning poets and critics
