The X Factor A Quest For Excellence:

Profile Pieces Sue Joseph, Richard Lance Keeble, 2015-10-14 This book examines the history theory and journalistic practice of profile writing Profiles and the practice of writing them are of increasing interest to scholars of journalism because conflicts between the interviewer and the subject exemplify the changing nature of journalism itself While the subject often through the medium of their press representative struggles to retain control of the interview space the journalist seeks to subvert it This interesting and multi layered interaction however has rarely been subject to critical scrutiny partly because profiles have traditionally been regarded as public relations exercises or as soft journalism However chapters in this volume reveal not only that profiling has historically taken many different forms but that the idea of the interview as a contested space has applications beyond the subject of celebrated individuals The volume looks at the profile s historical beginnings at the contemporary manufacture of celebrity versus the ordinary at profiling communities countries and movements at profiling the destitute at sporting personalities and finally at profiling and trauma

Empowerment : the Competitive Edge in Sports, Business & Life Gene N. Landrum, 2006 In Empowerment The Competitive Edge in Sports Business Life high profile personality Dr Gene Landrum presents in a self help format the 13 winning behaviors modeled by the 13 greatest athletes of the modern era Landrum s research into the lives of the great entrepreneurs and athletes supported by a growing body of evidence suggests that eminence whether in business or sports derives not from genetic superiority but from winning behaviors and learned emotional dispositions With a delightful blend of gifted story telling and intellectual scholarship Dr Landrum has created a book that melds the recent discoveries in psychology and brain research with the dramatic performances of the world s greatest athletes Charismatic athletes such as Michael Jordan Lance Armstrong Martina Navratilova and Tiger Woods are analyzed in psycho biographical profiles that focus on the underlying motivations and behaviors of these preeminent personalities rather than on what they achieved In this respect and in its connection to the recent research in brain function and psychology Dr Landrum s work is unprecedented in the extant literature on athletes and athletic technique Amazon com
