## **Theatricality As Medium:**

*Theatricality as Medium* Samuel Weber, 2009-08-25 Ever since Aristotle's Poetics both the theory and the practice of theater have been governed by the assumption that it is a form of representation dominated by what Aristotle calls the mythos or the plot This conception of theater has subordinated characteristics related to the theatrical medium such as the process and place of staging to the demands of a unified narrative This readable thought provoking and multidisciplinary study explores theatrical writings that question this aesthetical generic conception and seek instead to work with the medium of theatricality itself Beginning with Plato Samuel Weber tracks the uneasy relationships among theater ethics and philosophy through Aristotle the major Greek tragedians Shakespeare Kierkegaard Kafka Freud Benjamin Artaud and many others who develop alternatives to dominant narrative aesthetic assumptions about the theatrical medium His readings also interrogate the relation of theatricality to the introduction of electronic media The result is to show that far from breaking with the characteristics of live staged performance the new media intensify ambivalences about place and identity already at work in theater since the Greeks Praise for Samuel Weber What kind of questioning is primarily after something other than an answer that can be measured in cognitive terms Those interested in the links between modern philosophy and media culture will be impressed by the unusual intellectual clarity and depth with which Weber formulates the questions that constitute the true challenge to cultural studies today one of our most important cultural critics and thinkers MLN [Points of Departure](#) Peter Fenves, 2016-11-15 Since the late 1960s when he introduced Theodor Adorno's work on literature and cultural critique to an English speaking public Samuel Weber has stimulated the discovery of new and unexpected links within a broad spectrum of humanistic disciplines including critical theory and psychoanalysis media studies and literary analysis continental philosophy and theater studies The international group of scholars who contribute to [Points of Departure](#) demonstrate the persistent fecundity of Weber's work Centered around his essay on the Ghost of Hamlet as reflected in the writings of Walter Benjamin and Carl Schmitt the volume is broadly divided into explorations of the nature of spectrality on the one hand and the dynamics of reading on the other Each of the twelve essays thus takes its point of departure from Weber's singular path between languages cultures and traditions to quote Jacques Derrida whose fictive interview with a passing journalist is published here for the first time **Theatre, Technicity, Shakespeare** W. B. Worthen, 2020-04-23 Worthen uses contemporary Shakespeare performance to explore the technicity of theatre its changing work as an intermedial technology **TDR.**, 2006 *Screened States* Rachel Joseph, 2009 *Looking Through Theatre* Kati Röttger, 2026-03-10 How do the visible and the invisible interact in aesthetic experience Kati Röttger connects phenomenology and intermediality to engage with orders of looking in theatrical events and thus offers a multifaceted methodological approach to performance analysis The study balances theory and methodology in combination with extensive case studies encompassing different histories cultures and media from dance to postdramatic theatre film and theatre texts

The reader gains a deep insight into the relevance of theatrical performances as poison and cure in hyper industrial societies because of theatre's capability to theorize critically the not least violent interrelationship of seeing and being seen
