Wickes, George Kalantzis, 2023 The book gathers and translates texts from early Christianity that explore the diversity of theological approaches to the nature and ends of humanity Readers will gain a sense of how early Christians reflected on humanity and human nature in different theological movements and their legacies in late antiquity and the dawn of the Middle Ages

ReSourcing Theological Anthropology Marc Cortez, 2018-01-09 Theologians working in theological anthropology often claim that Jesus reveals what it means to be truly human but this often has little impact in their actual account of anthropology ReSourcing Theological Anthropology addresses that lack by offering an account of why theological anthropology must begin with Christology Building off his earlier study on how key theologians in church history have understood the relationship between Christology and theological anthropology Cortez now develops a new proposal for theological anthropology and applies it to the theological situation today ReSourcing Theological Anthropology is divided into four sections The first section explores the relevant Christological anthropological biblical passages and unpacks how they inform our understanding of theological anthropology The second section discusses the theological issues raised in the course of surveying the biblical texts The third section lays out a methodological framework for how to construct a uniquely Christological anthropology The final section builds on the first three sections and demonstrates the significance of Christology for understanding theological anthropology by applying the methodological framework to several pressing anthropological issues gender and sexuality race and ethnicity and death and suffering X **An Introduction to**

Theological Anthropology Joshua R. Farris, 2020-04-21 In this thorough introduction to theological anthropology Joshua Farris offers an evangelical perspective on the topic Farris walks the reader through some of the most important issues in traditional approaches to anthropology such as sexuality posthumanism and the image of God He addresses fundamental questions like Who am I and Why do I exist He also considers the creaturely and divine nature of humans the body soul relationship and the beatific vision **A Theological Anthropology** Hans Urs von Balthasar, 2010-04-01 Originally published in 1967 the German title of the original volume translates to The Whole in the Fragment A Theological

Anthropology is described by the author as an essay Indeed it is man s history of theology without firm conclusions but brilliantly written by one of the foremost theologians of his time Theological Anthropology: A Guide for the Perplexed Marc Cortez, 2010-03-21 A guide to the most challenging issues that face anyone studying theological anthropology

Theology and the Anthropology of Christian Life Joel Robbins, 2020 How can we understand the role of religion in human experience and social life This book argues that anthropology and theology can work together to answer this question Robbins provides clear accounts of contemporary anthropological theory and theological debates around issues such as atonement sin and the potentials and limits of human action **Christological Anthropology in Historical Perspective**

Marc Cortez,2016-02-02 What does it mean to be truly human In Christological Anthropology in Historical Perspective Marc Cortez looks at the ways several key theologians Gregory of Nyssa Julian of Norwich Martin Luther Friedrich Schleiermacher Karl Barth John Zizioulas and James Cone have used Christology to inform their understanding of the human person Based on this historical study he concludes with a constructive proposal for how Christology and anthropology should work together to inform our view of what it means to be human Many theologians begin their discussion of the human person by claiming that in some way Jesus Christ reveals what it means to be truly human but this often has little impact in the material presentation of their anthropology Although modern theologians often fail to reflect robustly on the relationship between Christology and anthropology this was not the case throughout church history In this book examine seven key theologians and discover their important contributions to theological anthropology Anthropology in Theological Perspective Wolfhart

Pannenberg,2004-08-23 In this comprehensive study a renowned theologian examines the anthropological disciplines human biology psychology cultural anthropology sociology and history for their religious implications The result is a theological anthropology that does not derive from dogma or prejudice but critically evaluates the findings of the disciplines Pannenberg begins with a consideration of human beings as part of nature moves on to focus on the human person and then considers the social world its culture history and institutions All the elements of this multi faceted study unite in the final chapter on the relation of human beings to their history *Body Parts* Michelle Voss Roberts,2017-12-01 Christians have traditionally

claimed that humans are created in the image of God imago Dei but they have consistently defined that image in ways that exclude people from full humanity The most well known definition locates the image in the rational soul which is constructed in such a way that women children and many persons with disabilities are found deficient *Body Parts* claims the importance of embodiment difference and limitation not only as descriptions of the human condition but also as part of the imago Dei itself

On Being Human Ray S. Anderson,2010-10-01 What does it mean to be human How does a right understanding of personhood affect decisions on critical life situations What implications does a biblical perspective on personhood have for the pastoral ministry of healing and hope In answering these questions Ray S Anderson focused on the person as determined by and sustained by the creative power of God He explored the the implications of a biblical understanding of personhood for such critical issues as human sexuality family relationships abortion and death He broke new ground in relating pastoral care and counseling to contemporary issues which challenge Christians and their understanding of the meaning of human life

The Christian Vision of Humanity John Randall Sachs,1991 The incredible technical achievements of recent history may make us feel little less than gods but we also find much that cuts us down When we face our own limits and failures upon what or whom can we rely The biblical answer to questions about the ultimate nature and meaning of human life begins with the experience of Semitic slaves led out of Egyptian slavery beautifully recounted in Deuteronomy 26 5 11 The New Testament presents Jesus as the culmination of God s Old Testament promise Christian faith has a particular Vision of the

world and of humanity founded upon the relationship between God and creation Its key elements are found in the inviolable dignity of every person the essential centrality of community and the significance of human action These are the main themes of a Christian anthropology developed in this book The Ashgate Research Companion to Theological Anthropology Asst Prof Joshua Ryan Farris, Professor Charles Taliaferro, 2015-03-28 Philosophers and theologians address the relationship between body and soul and its implications for theological anthropology interacting with cognitive science biological evolution psychology and sociology Reflecting these exciting new developments The Ashgate Research Companion to Theological Anthropology is a resource for philosophers and theologians students and scholars interested in the constructive critical exploration of a theology of human persons Throughout this collection of newly authored contributions key themes are addressed human agency and grace the soul sin and salvation Christology glory feminism the theology of human nature and other major themes in theological anthropology in historic as well as contemporary contexts **The Heart Has Its Reasons** Beata Toth, 2016-05-26 The Heart Has Its Reasons explores a hitherto neglected area of theological anthropology the unity of human emotion and reason embodied in the Biblical concept of the heart While the theological contours of human rationality have long been clearly drawn and presented as the exclusive seat of the image of God affectivity has been relegated to a secondary position With the reintegration of the body into recent philosophical and theological discourses a number of questions have arisen if the image also resides in the body how does this change one's view of the theological significance of human affect In what way is our likeness to God realised in the whole of what we are Can one overcome the traditional dissociation between intellect and affect by a renewed theory of love In conversation with patristic and medieval authors like Irenaeus Tertullian Gregory of Nyssa Maximus and Thomas Aquinas and in dialogue with more recent interlocutors such as Blaise Pascal Ricoeur Marion Milbank and John Paul II Beata Toth pursues a novel theological vision of the essential unity of our humanity **T. F. Torrance's Christological Anthropology** Christopher G. Woznicki, 2022 Reforming Theological Anthropology F. LeRon Shults, 2003-02-20 With the profound changes in today's intellectual and scientific landscape traditional ways of speaking about human nature sin and the image of God have lost their explanatory power In this volume F LeRon Shults explores the challenges to and opportunities for rethinking current religious views of humankind in contemporary Western culture From philosophy to theology from physics to psychology we find a turn to the categories of relationality Shults briefly traces this history from Aristotle to Levinas showing its impact on the Christian doctrine of anthropology and he argues that the biblical understanding of humanity has much to contribute to today's dialogue on persons and on human becoming in relation to God and others Shults's work stands as a potent effort to reform theological anthropology in a way that restores its relevance to contemporary interpretations of the world and our place in it *The Ashgate Research Companion to Theological Anthropology* Joshua R. Farris, Charles Taliaferro, 2016-03-09 In recent scholarship there is an emerging interest in the integration of philosophy and theology Philosophers and theologians address

the relationship between body and soul and its implications for theological anthropology In so doing philosopher theologians interact with cognitive science biological evolution psychology and sociology Reflecting these exciting new developments The Ashgate Research Companion to Theological Anthropology is a resource for philosophers and theologians students and scholars interested in the constructive critical exploration of a theology of human persons Throughout this collection of newly authored contributions key themes are addressed human agency and grace the soul sin and salvation Christology glory feminism the theology of human nature and other major themes in theological anthropology in historic as well as contemporary contexts

The College Student's Introduction to Theology Thomas P. Rausch, 1993 Written from a Roman Catholic perspective the book is ecumenical in its approach and reflect the pluralism of contemporary theology in the different viewpoints of its contributors It includes a number of maps charts and a glossary of terms

Anthropology and New Testament Theology Jason Maston, Benjamin E. Reynolds, 2018-02-22 This volume considers the New Testament in the light of anthropological study in particular the current trend towards theological anthropology The book begins with three essays that survey the context in which the New Testament was written covering the Old Testament early Jewish writings and the literature of the Greco Roman world Chapters then explore the anthropological ideas found in the texts of the New Testament and in the thought of its writers notably that of Paul The volume concludes with pieces from Brian S Roser and Ephraim Radner who bring the whole exploration together by reflecting on the theological implications of the New Testament's anthropological ideas Taken together the chapters in this volume address the question that humans have been asking since at least the earliest days of recorded history what does it mean to be human The presence of this question in modern theology and its current prevalence in popular culture makes this volume both a timely and relevant interdisciplinary addition to the scholarly conversation around the New Testament

The Soul of Theological Anthropology Joshua R. Farris, 2016-11-25 Recent research in the philosophy of religion anthropology and philosophy of mind has prompted the need for a more integrated comprehensive and systematic theology of human nature This project constructively develops a theological accounting of human persons by drawing from a Cartesian as a term of art model of anthropology which is motivated by a long tradition As was common among patristics medievals and Reformed Scholastics Farris draws from philosophical resources to articulate Christian doctrine as he approaches theological anthropology Exploring a substance dualism model the author highlights relevant theological texts and passages of Scripture arguing that this model accounts for doctrinal essentials concerning theological anthropology While Farris is not explicitly interested in thorough critique of materialist ontology he notes some of the significant problems associated with it Rather the present project is an attempt to revitalize the resources found in Cartesianism by responding to some common worries associated with it
