Theorie De La Religion:

Théorie de la religion Georges Bataille, 1974 Theory of Religion Georges Bataille, 1989 Argues that religion is the search for lost intimacy discusses its connection to the general economy and examines the sacrifice of war **After Bourdieu** David L. Swartz, Vera L. Zolberg, 2005-07-15 critical evaluations of his work notably papers by Rodney Benson 4 Rogers Brubaker Nick Crossley and John Myles Indeed it is the 1985 article by Rogers Brubaker that can truly be said to have served as one of the best introductions to Bourdieu s thought for the American social scientific public It is for this reason that we include it in the present collection Intellectual origins orientations We begin by providing an overview of Bourdieu s life as a scholar and a public intellectual The numerous obituaries and memorial tributes that have appeared following Bourdieu s untimely death have revealed something of his life and career but few have stressed the intersection of his social origins career trajectory and public intellectual life with the changing political and social context of France This is precisely what David Swartz s In memoriam attempts to accomplish In it he emphasizes the coincidence of Bourdieu s young and later adulthood with the period of decolonization the May 1968 French university crisis the opening up of France to privatization of many domains previously entrusted to the state l tat providence and most threatening to post World War II reforms the emergence of globalization as the hegemonic structure of the 21st century An orienting theme throughout Bourdieu s work warns against the partial and fractured views of social reality generated by the fundamental subject object dichotomy that has plagued social science from its very beginning *Religion Dans L'histoire* Michel Despland, Gérard Vallée, Canadian Corporation for Studies in Religion, 1992-03-03 The history of the concept of religion in Western tradition has intrigued scholars for years This important collection of eighteen essays brings further light to the ongoing debate Three of the invited participants W C Smith M Despland and E Feil has each previously written impressive books treating this subject the last two acknowledged the impact and continuing influence of Smith s work The Meaning and End of Religion An introduction and a recapitulation of Smith s contribution as a scholar set the stage for a retrospective look at the published literature Contributors then examine the transformation of words the classical religio to the modern religion particularities of religion in nineteenth century France Troeltsch s concept of religion the study of religion from an Asian point of view and the categorization of World Religions The concluding essays elaborate contemporary anthropological cross disciplinary semiological deconstructive and psychoanalytical methodological approaches to the concept and study of religion Exploring critically different aspects of the concept and study of religion these provocative essays typically reflect the methodological pluralism currently existing in the field of Religious Studies Of interest to scholars and students alike this collection also contains a complete bibliography of W C Smith s publications **Études D'économie Sociale (théorie de la Répartition de la Richesse Sociale)** Léon Walras, 1896 **Volume 10: Philosophy of Religion** Guttorm Fløistad, 2009-10-31 The present volume is a continuation of the series Contemporary Philosophy As with the earlier volumes in the series the present

Chronicles purport to give a survey of significant trends in contemporary philosophy The need for such surveys has I believe increased rather than decreased over the years The philosophical scene appears for various reasons more complex than ever before The continuing process of specialization in most branches the increasing contact between philosophers from various cultures the emergence of new schools of thought particularly in philosophical logic and in the philosophy of language and ethics and the increasing attention being paid to the history of philosophy in discussions of contemporary problems are the most important contributing factors Surveys of the present kind are a valuable source of knowledge of this complexity The surveys may therefore help to strengthen the Socratic element of modern philosophy the intercultural dialogue or Kommunikationsgemeinschaft So far nine volumes have been published in this series viz Philosophy of Language and Philosophical Logic Volume 1 Philosophy of Science Volume 2 Philosophy of Action Volume 3 Philosophy of Mind Volume 4 African Philosophy Volume 5 Medieval Age Philosophy Volumes 6 1 and 6 2 Asian Philosophy Volume 7 Philosophy of Latin America Volume 8 and Aesthetics and Philosophy of Art Volume 9

Emile Durkheim Peter Hamilton,1995 Completing the project of the earlier assessments these volumes concentrate on four themes the reception of Durkheim's work during his life the relationship between his ideas and French society his influence on his followers and his relevance today

Religious Rights Lorenzo Zucca,2017-05-15 The central focus of this collection of essays is the role and place of freedom of religion in the protection and promotion of world order The volume offers competing models of world order from a global perspective and highlights the lack of consensus and considerable variety of practice and belief around the globe as to the definition of religious freedom and where and whether freedom of religion is regarded as the first freedom in the world The leading theories of freedom of religion are discussed and provide an understanding of freedom of religion beyond the nation state The liberal view at the global level is also examined and observations are included regarding the need to rethink secularism in the light of present circumstances and within the global context
