

Developmental Theories' Comparative Analysis

Topic: Psychology | Words: 1051 | Pages: 4

Introduction

Studying people's behavior has been a central focus for various scholars and scientists over the centuries. This has led to the development of various theories that aim at explaining why people behave and develop the way they do. Arguably, a human being's behavior and development is a lifelong process that involves psychological and social changes, which are experience during the lifespan of an individual. This report shall set out to compare and contrast two developmental theories. To this end, an evaluation of the strengths, weaknesses, likes and dislikes of each theory shall be provided.

Attachment theory

John Bowlby is a famous psychologist who specialized in child psychiatry. In his effort to understand the developmental processes of human beings, he worked in conjunction with Mary Ainsworth who also had a keen interest in understanding the behavioral development of human beings (Isaacson & university of Carlifonia, Davis, 2006). Together, they formulated the theory of attachment, which stresses the significance of early-life experiences to the development of a child in later stages. Bowlby believed that personal development is highly influenced by family relationships, while Mary Ainsworth stressed that children need to depend on their parents before they can become independent (Isaacson & University of California, Davis, 2006).

In this theory, John Bowlby asserts that during the infancy stage, a child
