Collyer,2025-07-15 This timely Handbook celebrates and contributes to the recent revitalisation of the sociology of knowledge A diverse group of leading experts from the global North and South provide a state of the art overview of a field which is developing rapidly with the growth of poststructuralist postcolonial and feminist approaches *Awareness and the Substructure of Knowledge* Paul Silva Jr,2022-12-20 To say that someone is aware of a fact is a commonplace expression not at all a philosopher s term of art It is often used to criticize excuse admonish and inform others Such uses of the expression presuppose the existence of a state of awareness that one can be in or fail to be in with regard to some fact Here lies the phenomenon of factual awareness It is conventional in epistemology to treat S is aware of the fact that p as either expressing the same thought as S knows that p or at least entailing it Learning of the failure of conventional views is often both surprising and theoretically fruitful This book presents a comprehensive case against the view that factual awareness just is knowledge or even essentially related to knowledge factual awareness is not identical to and it does not entail knowing being in a position to know or being capable of knowing It provides a systematic exploration of the relation between knowledge and factual awareness arguing that knowledge is but one species of factual awareness and that we can understand the possession of objective reasons the normativity of knowledge and the nature of knowledge in terms of factual awareness In this way the state of factual awareness is structurally and substantively a more basic type of state than knowledge If correct this undermines a number of ways in which knowledge has been regarded as coming first in recent epistemology **Theories of Knowledge Historically Considered, with Special Reference to Scepticism and Belief** William Dexter Wilson,1889
